Beowulf on Film Nickolas Haydock, E.L. Ridsen, 2013-09-21 Why did the most read work in English literature go without cinematic adaptation for so long And why did five major film treatments appear between 1999 and 2008 This book explores the growing number of films based on the Old English epic poem Beowulf and furthers the ongoing consideration of filmic medievalism Will the powerful influence of cinema affect the future reception of this great cultural linguistic and inherently visual work The films inevitably sway away from not only the story but also from the themes and concerns of the original to those more interesting to the filmmakers or responsive to the zeitgeist They measure the pulse of our inherited notions of heroism and teach us more about our own times than about the epic from which they derive Monteverdi and the Marvellous Roseen Giles, 2023-09-28 The marvellous a key concept in literary debates at the turn of the seventeenth century involved sensory and perspectival transformation a rhetoric built on the unexpected contradictory and thought provoking The composer Claudio Monteverdi 1567 1643 created a new practice in which the expressive materials of music and poetry were placed in concert This innovative new study of Monteverdi's literary personality integrates musical and poetic analysis to create an approach to text music relations that addresses scholars of both literature and music It illuminates how experiments in language and perception at the turn of the seventeenth century were influenced and informed by the work of musicians of that era Giles provides a new perspective on the music and poetry of Monteverdi's madrigals through the poetics of the marvellous In his madrigals Monteverdi created a reciprocity between poetry and music which encouraged audiences to contemplate their interactions and consequently to listen differently The Holy Spirit-The Comforter John Owen, 2023-04-05 Crossway Introduces the Collected Works of John Owen Updated for Modern Readers Regarded as one of the greatest theologians in history 17th century pastor John Owen remains influential among those interested in Puritan and Reformed theology The Complete Works of John Owen brings together all of Owen's original theological writing including never before published work reformatted for modern readers in 40 user friendly volumes Volume 8 The Holy Spirit The Comforter includes the treatises The Work of the Holy Spirit in Prayer The Holy Spirit as a Comforter and A Discourse of Spiritual Gifts Each treatise has been edited by Puritan scholar Andrew Ballitch Released over a number of years The Complete Works of John Owen will inspire a new generation of Bible readers and scholars to deeper faith Edited and Formatted for Modern Readers Presents Owen's original work newly typeset with outlines text breaks headings and footnotes Informative New Introductions Provide historical theological and personal context Supporting Resources Enhance Reading Include extensive annotations with sources definitions and translations of ancient languages Part of the Complete Works of John Owen Collection Will release 40 hardcover volumes over a number of years Perfect for Churches and Schools Ideal for students pastors theologians and those interested in the Holy Spirit and the Puritans **The Enduring Legacy of Venetian Renaissance Art** Andaleeb Badiie Banta, 2017-07-05 Venetian artistic giants of the sixteenth century such as

Giorgione Vittore Carpaccio Titian Jacopo Sansovino Jacopo Tintoretto Paolo Veronese and their contemporaries continued to shape artistic development tastes in collecting and modes of display long after their own practices ended The robust reverberation of the Venetian Renaissance spread far beyond the borders of the lagoon to inform and influence artists authors and collectors who spent very little or even no time in Venice proper The Enduring Legacy of Venetian Renaissance Art investigates the historical resonance of Venetian sixteenth century art and explores its afterlife and its reinvention by artists working in its shadow Despite being a frequently acknowledged truism the pervasive legacy of Venetian sixteenth century art has not received comprehensive treatment in recent publication history The broad scope of the topics covered in these essays from Titian s profound influence on the development of landscape painting to the effects of Carpaccio s historical paintings on early twentieth century fashion illustrates the persistence and adaptability of the Venetian Renaissance s legacy In addition to analyzing the effects of individual artists on each other this volume offers insight into the shifting characterizations and reception of Venice as a center for artistic innovation and inspiration throughout the early modern period providing a nuanced and multifaceted view of the singular lagoon city and its indelible imprint on the history of art
