6 pages | 1356 words

Virginia Woolf is regarded to be a modern literary figure. She was an English novelist and essayist who was a significant icon in London literary society. She was a member of the Bloomsbury group. Her famous novels are "Mrs. Dalloway", "To The Lighthouse" and "Orlando" and the essay "A Room of One's Own." Contemporary feminists regard Woolf as an advocate of the movement. This paper will analyze Woolf's background and some of her works to bring up points of her beliefs on the matter. Growing up in London, Woolf was influenced by a wide circle of Victorian society. Her father, Sir Leslie Stephen was an editor, critic and biographer.

He had connections to numerous British writers including William Thackeray. Novelists such as George Eliot, Henry James, Julia Margaret Cameron, George Henry Lewes and James Russell Lowell often dropped by in their house. (Maze, 18, 1995) Woolf and her sister Vanessa were sexually abused by their half-brothers Gerald and George. According to modern scholars, this traumatizing experience triggered her nervous breakdowns. The deaths of her mother Julia Prinsep Stephen in 1895, her half-sister Stella in 1897 and her father in 1904 added salt to the wound. Woolf was institutionalized after her most alarming breakdown.

(Maze, 20, 1995) Despite her mood swings, mental breakdowns and decline in social functioning, Woolf's abilities to write remained. Biographers claim that Woolf's marriage to Leonard Woolf was not consummated. According to them, she was a lesbian. Nonetheless, the couple had a tight relationship and often collaborated in the literature industry. Leonard Woolf was the publisher while Virginia Woolf was the writer. Hogarth Press published a majority of Woolf's works. (Maze, 23, 1995) Woolf had a relationship with Vita Sackville West, an English poet and novelist. Their affair lasted for two years but they remained friends.

Other relationships with women were Madge Vaughn (the inspiration for "Mrs. Dalloway") and Violet Dickinson, a composer. There were also debates on whether Vanessa and Virginia also had an intimate and incestuous relationships or they were just close. (Maze, 24, 1995) Modern science explains Woolf's disorder as a case of bipolar personality. On the verge of another nervous breakdown, Woolf committed suicide by drowning herself in the River Ouse. (Bowlby, 32, 1989) Students concentrating on Woolf and her works often analyze the lesbian and feminist themes in her novels, essays and short stories.

For example, "A Room of One's Own" discusses the difficulty female intellectuals and writers had to go through a time when men had more economic and legal power. What was instore for women in society and in education were unknown. This work exploited the obstacles, challenges and the anxieties of Woolf and other women writers during the 1930s. (Bowlby, 35, 1989) Women writers were afraid to write what they believed to be the "truth" because they were afraid that the academic world, which was made up by a majority of men, would disclaim their writings and describe it as mere opinions.

A major problem of women writers in that decade was that they were not...
