

Virtuous Giving Flow

When a Donor makes a Gift online:

Virtuous Giving Form

When a Donor submits an online Gift, the Virtuous Giving form encrypts the payment information and sends it to the Payment Gateway. Virtuous Giving then feeds all transaction reporting and recurring gift schedules into the Online Giving Dashboard within the CRM.

Payment Gateway

Within seconds, the Payment Gateway verifies the card information and determines if the transaction is successful or declined.

Online Giving Dashboard

The Gift information is sent to the Online Giving Dashboard in the CRM from the Payment Gateway in real-time with Project and fee details.

Gift & Contact Import Tool

Gifts are bundled and pushed to the Import Tool in Virtuous CRM nightly.

What is a Payment Gateway?

Your Payment Gateway is responsible for sending a Donor's Gift information to all necessary parties once the transaction is verified as successful, including the Donor's bank, your bank, and Virtuous Giving. Examples of Payment Gateways include Stripe or Stax.

Settlement & Payout

After a transaction has been approved by the Gateway, the issuing bank will begin to facilitate the transfer of funds. A Payout of the funds is then deposited into your bank account.

Reconciliation Reports

As the timing of each Gift's Payout may vary, the Reconciliation tab under Online Giving provides Reports of the transactions within each Payout.

Why do Gifts have different Payout dates?

The timing of payouts depends on if the Gift is ACH or the credit card type. Each Payout deposited into your bank account may contain transactions made over a range of dates. Reconciliation Reports connect the transactions in the CRM with Payouts in your account.
