Woodcuts as Reading Guides Andrea Leerdam,2025-10-01 In the first half of the sixteenth century the Low Countries saw the rise of a lively market for practical and instructive books that targeted non specialist readers This study shows how woodcuts in vernacular books on medicine and astrology fulfilled important rhetorical functions in knowledge communication These images guided readers perceptions of the organisation visualisation and reliability of knowledge Andrea van Leerdam uncovers the assumptions and intentions of book producers to which images testify and shows how actual readers engaged with these illustrated books Drawing on insights from the field of information design studies she scrutinises the books material characteristics including their lay outs and traces of use to shed light on the habits and interests of early modern readers She situates these works in a culture where medicine and astrology were closely interwoven in daily life and where both book producers and readers were exploring the potential of images **Multimodal**

Metaphor Charles J. Forceville,Eduardo Urios-Aparisi,2009-09-04 Metaphor studies has over the past 30 years become a discipline in its own right mainly because of the cognitive linguistic claim that metaphors characterize thought not just

language But most metaphor scholars hitherto focus exclusively on its purely verbal expressions Since both persuasive and narrative discourses in contemporary society increasingly draw on modalities other than language alone sustained research into a broader range of manifestations of metaphor is imperative This volume is the first book length study to investigate multimodal occurrences of metaphor and is of interest to scholars interested in metaphor as well as in multimodal discourse Each chapter investigates metaphors whose identification and interpretation depend on the co presence of at least two of the following modalities language visuals gestures sound music On the basis of case studies in a variety of discourse genres advertising cartoons films comics conversation music amply represented in photographs logos drawings film stills and musical scores the contributors demonstrate that and how metaphor can occur multimodally providing ideas and methodological angles enabling further theorizing and testing in this rapidly expanding field Covering creative as well as conceptual metaphors and where appropriate evaluating cultural factors governing metaphor interpretation the contributors provide a wealth of material for studying the conceptual and rhetorical force of metaphor in contemporary society

Screen Design Manual Frank Thissen, 2003-09-11 The Screen Design Manual provides designers of interactive media with a practical working guide for preparing and presenting information that is suitable for both their target groups and the media

they are using It highlights background information and relationships clarifying them with examples and encourages the further development of the language of digital media In addition to the basics of perception and learning psychology ergonomics communication theory imagery research and aesthetics the book also considers design navigation and orientation elements Guidelines and checklists along with the comprehensive design of the book support the transfer of information into practice Frank Thissen teaches multimedia didactics and information design at the University of Applied Sciences in Stuttgart For over 10 years he has been developing computer based training He has worked for international companies such as Siemens AG and SAP AG His research project explores the role of emotion in e learning www.frankthissen.de Key Topics Interactive media Text for the screen Effective use of pictures Video animation and sound Screen layout Orientation and navigation Interaction Emotions and metamessages Intercultural communication *After the Information Age* James W. Marcum, 2006 Textbook Information Design Alison Black, Paul Luna, Ole Lund, Sue Walker, 2017-01-12 Information Design provides citizens business and government with a means of presenting and interacting with complex information It embraces applications from wayfinding and map reading to forms design from website and screen layout to instruction Done well it can communicate across languages and cultures convey complicated instructions even change behaviours Information Design offers an authoritative guide to this important multidisciplinary subject The book weaves design theory and methods with case studies of professional practice from leading information designers across the world The heavily illustrated text is rigorous yet readable and offers a single must have reference to anyone interested in information design or any of its related disciplines such as interaction design and information architecture information graphics document design universal design service design map making and wayfinding *Design, Ecology, Politics* Joanna Boehnert, 2018-02-08 Design Ecology Politics links social and ecological theory to design theory and practice critiquing the ways in which the design industry perpetuates unsustainable development Boehnert argues that when design does engage with issues of sustainability this engagement remains shallow due to the narrow basis of analysis in design education and theory The situation is made more severe by design cultures which claim to be apolitical Where design education fails to recognise the historical roots of unsustainable practice it reproduces old errors New ecologically informed design methods and tools hold promise only when incorporated into a larger project of political change Design Ecology Politics describes how ecological literacy challenges many central assumptions in design theory and practice By bringing design ecology and socio political theory together Boehnert describes how power is constructed reproduced and obfuscated by design in ways which often cause environmental harms She uses case studies to illustrate how communication design functions to either conceal or reveal the ecological and social impacts of current modes of production The transformative potential of design is dependent on deep reaching analysis of the problems design attempts to address Ecologically literate and critically engaged design is a practice primed to facilitate the creation of viable sustainable and just futures With this

approach designers can make sustainability not only possible but attractive
