

Wolf Brother Chapter 1

1.		Look at the first three paragraphs on page 1. How is Torak feeling as the story opens?
2.		Explain your response to 1 with evidence from the text.
3.		The story opens with this line: 'Torak woke with a jolt from a sleep he'd never meant to have.' What effect does this line have on you the reader? Why do you think the writer has chosen to open with this line.
4.		The beginning of the story is filled with tension. What techniques does the writer use to build tension on page 1? Explain with evidence from the text (quotes).
5.		What has happened to Fa?
6.		"Torak," he breathed. His hand reached out, his hot fingers clinging to Torak's as eagerly as a child. Torak swallowed. Son's clutch their fathers' hands, not the other way round." How is Torak feeling as his father clings to his hands? Why does he feel this way? <i>Point, explain.</i>
7.		"My bow," he said. "Three arrows. You — keep the rest. Where I'm going — hunting's easy." What does Fa mean by the words "Where I'm going — hunting's easy."? <i>Point, explain.</i>
8.		The story is set a long time ago, in the Stone Age, when most of Europe was completely covered in forest, and when people lived in small hunter-gatherer groups or 'clans' and moved around to follow prey; humans had not developed farming yet, and so permanent settlements were uncommon. Throughout this chapter there are many details which help us build a picture of Stone Age life for Torak and Fa. Make a list of details/information you have identified in the text about: - tools - food - shelter - beliefs

a number of caches New finds of antler frontlets have increased our understanding of the diversity of human interactions with animals If these do not get a gong something will have to be done about archaeology book awards Mike Pitts British Archaeology Despite the degradation these excavations have provided a new understanding of life in the Early Mesolithic particularly enhancing our understanding of how important wood a material rarely recovered was for Mesolithic people The findings challenge many of the preconceived views of this period in terms of the character and scale of activity and the degree of investment in a particular place in the landscape
