No Price Too High Robert M. Hardaway, 2003-10-30 Hardaway argues the criminalization of victimless crimes violates the Ninth Amendment to the U S Constitution and creates enormous public policy problems in the society He contends that the Ninth Amendment adjudication model and the concepts of self determination and the harm principle are the standards to which privacy issues should be litigated Hardaway contends that privacy issues should be litigated under the standards of the Ninth Amendment to the U S Constitution adjudication model concepts of self determination and the harm principle The Ninth Amendment follows the true beliefs of the founding fathers and their adherence to Natural Law autonomy liberty and the right to privacy This model needs to replace the substantive due process analysis in the realm of personal autonomy issues used by the courts The recognition of self determination and the harm principle will provide individuals with the

constitutional protection of rights the founding fathers thought to be imperative to an ordered liberty By seeking to explain American policy on victimless crimes of which drug use is one Hardaway seeks to stir a vigorous constitutional debate As he shows prostitution and gambling raise similar issues and he questions whether criminalization serves the interests of society In examining drug use prostitution and gambling Hardaway compares the policy rationales for each of these societal problems with a view towards creating a general theory of decriminalization An important analysis for scholars students researchers and public policy makers involved with constitutional law and contemporary criminal law concerns
