Women And Aging A Life Course Approach:

Women and Aging Mark Novak, 2014-05-14 Every day 10 000 Baby Boomers will enter old age between now and 2030 The older population in the U S will grow from 13% of the population today to nearly one person in five in 2030 Women make up more than half of this population And among the oldest age groups 85 women outnumber men two to one Some people refer to old age as a woman s world This study explores that world Women and Aging looks at the influence of social structures social policies and individual choices on women in later life women face in the workplace in middle age Each chapter explores a single topic ageism population aging health and well being health promotion finances and retirement relationships and caregiving Each chapter describes the condition of older women today and the experiences throughout the life course that led to this outcome The life course approach used here links the older woman to earlier stages in her life It also exposes the social forces that lead to the condition of women in old age today A Life Course Approach to Women's Health Gita Mishra, Rebecca Hardy, Diana Kuh, 2023 An up to date and comprehensive review of scientific evidence and methodological developments in life course epidemiology as applied to women s health **A Life Course Approach to the Epidemiology of Chronic Diseases and Ageing** Diana Kuh, Ezra Susser, Joanna M. Blodgett, Yoav Ben-Shlomo, 2025-01-16 A Life Course Approach to the Epidemiology of Chronic Diseases and Ageing Third Edition outlines how biological and social factors during gestation childhood adolescence and earlier adult life influence later life health and disease It also looks at whether and how to intervene to improve health outcomes This revised third edition is fully updated to reflect the new data that has emerged as well as our new understanding of health and global challenges It brings new chapters on a life course approach to the long term health consequences of climate change and the COVID 19 pandemic It examines the current and potential use of new technologies methods and collaborative approaches in life course studies and provides updated reviews of the latest life course evidence for age related chronic diseases It discusses how life course research is being used and could be used to improve population health in high middle and low income countries identifying how and when interventions may be most effective New chapters on multimorbidity translational geroscience and exposomics have also been added A Life Course Approach to Healthy Ageing Diana Kuh, Rachel Cooper, Rebecca Hardy, Marcus Richards, Yoav Ben-Shlomo, 2014 This title investigates the lifetime determinants of healthy ageing and their implications for policy and practice bringing together authorities in ageing research and knowledge transfer from across the world **Handbook of the Life Course** Jeylan T. Mortimer, Michael J. Shanahan, 2006-05-30 Mortimer sociology U of Minnesota and Shanahan sociology U of North Carolina at Chapel Hill present a handbook that overviews the theoretical perspectives concepts and methodological approaches that animate life course studies in social psychology Thirty four chapters are organized into sections that discuss variability in life course across historical and cross national settings normative age grading of the life course as reflective of social structures the way life courses reflect social institutions and individual level processes of motivation in the life course

Annotation c 2003 Book News Inc Portland OR booknews com Population Ageing from a Lifecourse Perspective Kathrin Komp, Stina Johansson, 2016-06-01 Populations around the globe are ageing rapidly This demographic shift affects families market structures and social provisions This timely volume part of the Ageing and the Lifecourse series argues that the lifecourse perspective helps us understand the causes and effects of population ageing The lifecourse perspective suggests that individuals experiences at an early age can influence their decisions and behaviour at a later age This much needed volume combines insights from different disciplines and real life experiences to describe the theories and practices behind this idea It therefore caters to the needs of scholars practitioners and policy makers in a range of areas including sociology and political science *Gender, Age and Inequality in the Professions* Marta Choroszewicz, Tracey L. Adams, 2019-03-13 The literature on gender and professions shows that professional careers continue to be impacted by gender albeit with important differences among professions and countries Much less researched is the issue of the significance of gender and age cohort or generation to professional work Gender Age and Inequality in the Professions explores men s and women s experiences of professional work and careers through an intersectional lens by focusing on the intersection of gender and age The chapters explore different professions including Medicine Nursing Law Academia Information Technology and Engineering in different Western countries in the present and over time Through original research and critical re analysis of existing research each of the chapters explores the significance of gender and age cohort or generation to professional work with particular attention to professionals just entering professional careers those building professional careers and comparisons of men and women in professions across generational cohorts The book contributes to literature on inequalities in the professions by demonstrating the ways in which gender and age converge to confer privilege and produce disadvantage and the ways in which gender inequality is reproduced and disrupted through the activities of professionals on the job The book constitutes a departure point for future research in terms of theoretical perspectives and empirical findings on how gendered and age related processes are produced and reproduced in particular organisational professional and socio cultural contexts To enhance generational understanding relationships and collaboration in educational institutions organisations and professions the book ends with a section on policy recommendations for educators professionals professional organisations as well as policy and decision makers This book will also appeal to students and researchers in the fields of Sociology Gender Studies Organisational and Management Studies Law Medicine Engineering and Information Technology as well as related disciplines **Women's Health in Canada** Marina Morrow, Olena Hankivsky, Colleen Varcoe, 2022-01-27 Women s Health in Canada considers the challenges relating to the conceptualization of women s health While emphasizing the importance of taking an intersectional approach to women s healthcare this book also focuses on the social and structural determinants at play This revised and updated second edition brings together a collection of new chapters and contributors who collectively shed light on the problems and risks involved in perceiving women s healthcare using a strictly gender or sex based lens

Contributors foreground an understanding of power as it is mediated through a range of social relations based on gender race culture ethnicity sexuality ability class and geography and the ways in which privilege and oppression intersect to shape health and system responses to health This new edition includes updates on what is currently known about women s health nationally and internationally and situates the chapters in the current Canadian health care and policy context Scholarship is foregrounded in new developments in gender and intersectional health research and policy Collectively this volume explores the important histories and contemporary realities in women s health experiences

Women and Health Marlene B. Goldman, Rebecca Troisi, Kathryn M. Rexrode, 2012-12-31 Women and Health is a comprehensive reference that addresses health issues affecting women of all ages from adolescence through maturity It goes far beyond other books on this topic which concentrate only on reproductive health and has a truly international perspective It covers key issues ranging from osteoporosis to breast cancer and other cancers domestic violence sexually transmitted diseases occupational hazards eating disorders heart disease and other chronic illnesses substance abuse and societal and behavioral influences on health In this second edition of Women and Health chapters thoughtfully explore the current state of women s health and health care including the influences of sex and gender on the occurrence of a wide variety of diseases and conditions All chapters have been extensively updated and emphasize the epidemiology of the condition the etiology occurrence primary and secondary prevention screening risk factors surveillance changing trends over time and critical analysis of the diagnostic and treatment options and controversies Treatment sections in each chapter have been expanded to create a stronger dialogue between epidemiologists and women s health practitioners Saves researchers and clinicians time in quickly accessing the very latest details on a broad range of women s health issues as opposed to searching through thousands of journal articles Provides a common language for epidemiologists public health practitioners and women s health specialists to discuss the behavioral cultural and biological determinants of women s health Researchers and medical specialists will learn how the gender specific risks and features of one organ system s diseases affect the health of other organ systems For example Hormone replacement therapy used to treat imbalance within the endocrine system is also being used to prevent and treat cardiovascular disease Drugs developed for type 2 diabetes are now being used in chemoprevention Orients the non gerontologist about the importance of considering the entire life cycle of women within research designs and treatment plans Professors teaching courses in women s health will use slides and additional materials to structure lectures courses students will use slides as a unique resource to study for exams

Family Ties and Aging Ingrid Arnet Connidis, 2010 This advanced textbook covers issues of family ties and aging broadly the goal being to provide an integrated and thorough representation of what we know from the current research Whereas books on families and aging have traditionally focused on ties to a spouse and to children and grandchildren Family Ties Aging is more extensive and more reflective of contemporary society The text includes groups and relationships that typically receive short shrift exploring such neglected

populations as single divorced and childless older people and their family relationships as well as sibling relationships among the elderly live in partnerships not formalized by marriage and the kinds of family ties forged by gay and lesbian persons over the life course The book weaves the vast range of information we now have about the many facets of family relationships and aging into a critical comprehensive and integrated whole
