Rose, 2020-10-30 To date war history has focused predominantly on the efforts of and impact of war on male participants However this limited focus disregards the complexity of gendered experiences with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of military culture examining the varied ideals and practices that have socially differentiated men and women's wartime experiences Covering the major periods in warfare since the seventeenth century The Handbook explores cultural representations of war and the interconnectedness of the military with civil society and its transformations *Women and Partisan Art* Elena Messner, Cristina Beretta, Goran Lazić, Markus Gönitzer, 2025-10-31 The resistance by partisan women in Yugoslavia and Carinthia Austria and particularly their artistic production have not been acknowledged in the historical accounts of World War II Their art was both a form of resistance and a culturally subversive practice ranging from avant garde aesthetics to traditional forms of folk art and handicraft The cultural production by and subsequently about the Yugoslav and Carinthian

The Eastern Front Yan Mann, Olga Kucherenko, 2024-11-14 The Second World War in Eastern Europe is far from a neglected topic especially since social cultural and diplomatic historians have entered a field previously dominated by operational histories and produced a cornucopia of new scholarship offering a more nuanced picture from both sides of the front However until now the story has still been disjointed and specialized whereby military social economic and diplomatic histories continue to give their own separate accounts This collection of essays attempts to bring these themes into a more cohesive whole that tells a complex multifaceted story of war on the Eastern Front as it truly was This is one of the few critical examinations that includes both perspectives and looks at the war as a multi front effort It also reveals how myths are created around military conflicts and have direct relevance to current developments in Europe linking them to a broader discussion of the Second World War its impact and utility today It gives a historical dimension to pressing issues and will be of interest and relevance to history students policymakers political scientists diplomats and foreign policy experts The Eastern Front will be a useful reference source since some chapters rely on extensive new archival research and materials ego sources as well as extensive findings of non Western scholars thereby bringing their work to the attention of a broader audience

The New Yugoslav Woman Branka Bogdan, 2025-09-30 From 1945 to 1989 the Yugoslav state connected its claims of progressive politics and gender equality to its support of free healthcare sex education and contraception and laws that supported reproductive choice Yugoslav men and women internalized these messages proclaiming their homeland s superior care for its citizens in comparison to postwar Europe and the United States Even as Yugoslav women faced stigma and abuse for their usage of contraceptives and medical practitioners grappled with new regulations and technology alongside personal ideologies Yugoslavs celebrated their own reformation into new politically minded citizens who carefully navigated tradition and modernity as they reconstructed the nation The New Yugoslav Woman provides a social and cultural history of how Yugoslav communists used reproductive regulation to build a platform of socialism through self management and to position the country as a conduit between the global North and South Author Branka Bogdan traces reproduction as a central facet of socialist Yugoslavia s state formation through the nation s laws medical infrastructure technological growth and state run sex education programs Bringing this history to the present day with a discussion of more than two dozen interviews with Yugoslav patients and medical professionals Bogdan reveals how these recollections show key continuities with the past rather than an abrupt break between the socialist and post socialist worlds Drawing Yugoslavian women s experiences into the geopolitical history of reproduction and the Cold War era state The New Yugoslav Woman reveals the centrality of reproduction contraception and abortion to socialist Yugoslavia s self conception as the developed leader of the developing world

Paramilitarism and European Society in the 1940s Gareth Pritchard, Vesna Drapac, 2025-01-29 This book explores the social roots character and consequences of paramilitary violence in Europe in the 1940s Paramilitarism had an impact on the lives of millions of Europeans yet knowledge about this important topic is partial and fragmented The general perception of European paramilitary violence in the 1940s derives almost entirely from the resistance collaboration paradigm This dichotomous analytical framework makes a clear distinction between politically motivated violence and social violence such as sexual criminal and structural violence By contrast in this book Gareth Pritchard and Vesna Drapac recognise the mutual dependence of all kinds of violence Their interpretative model the Regimes of Violence paradigm which takes account of the changing relationship between state society and organised violence allows us to observe paramilitarism in the round The Regimes of Violence framework reveals the interconnectedness of paramilitarism with other forms of violence during this period of unprecedented brutality Today paramilitary violence is a global phenomenon It has resulted in the undermining of the rule of law and the erosion of civil society in many different countries on different continents while at the same time traumatising the countless numbers of innocent people who are caught in its crossfire With their compelling and timely study

Pritchard and Drapac provide an historical context and present a novel approach for understanding why paramilitarism shows no sign of abating
