Why Women Don't Ask Linda Babcock, Sara Laschever, 2008 Did you know that by neglecting to negotiate her starting salary for her first job a woman may sacrifice over a half a million pounds in earnings by the end of her career Yet as research reveals men are four times as likely to ask for higher pay than are women with the same qualifications In this eye opening book Linda Babcock and Sara Laschever draw on research in psychology sociology economics and organisational behaviour as well as dozens of interviews to explore the personal and societal reasons women seldom ask for what they need want and deserve at work and at home *Women Don't Ask* a sensation when published in the US in 2003 is a call to arms that will help you recognise the ways in which our culture perpetuates inequalities and how you can begin to overcome them

Women Don't Ask Linda Babcock, 2003 By looking at the barriers holding women back and the social forces constraining them this book shows women how to reframe their interactions and more accurately evaluate their opportunities It teaches them how to ask for what they want in ways that feel comfortable and possible taking into account the impact of asking on their relationships It teaches all of us how to recognize the ways in which our institutions child rearing practices and unspoken assumptions perpetuate inequalities that are not only fundamentally unfair but also inefficient and economically unsound Drawing on research in psychology sociology economics and organizational behavior as well as dozens of interviews with men and women from all walks of life this is the first book to identify the dramatic difference between men and women in their propensity to negotiate for what they want It tells women how to ask and why they should

Negotiating at Work Deborah M. Kolb, Jessica L. Porter, 2015-01-27 Understand the context of negotiations to achieve better results Negotiation has always been at the heart of solving problems at work Yet today when people in organizations are asked to do more with less be responsive 24/7 and manage in rapidly changing environments negotiation is more essential than ever What has been missed in much of the literature of the past 30 years is that negotiations in organizations always take place within a context of organizational culture of prior negotiations of power relationships that dictates which issues are negotiable and by whom When we negotiate for new opportunities or increased flexibility we never do it in a vacuum We challenge the status quo and we build out the path for others to negotiate those issues after us In this way negotiating for ourselves at work can create small wins that can grow into something bigger for ourselves and our organizations Seen in this way negotiation becomes a tool for addressing ineffective practices and outdated assumptions and for creating change Negotiating at Work offers practical advice for managing your own workplace negotiations how to get opportunities promotions flexibility buy in support and credit for your work It does so within the context of organizational dynamics recognizing that to negotiate with someone who has more power adds a level of complexity The is true when we negotiate with our superiors and also true for individuals currently under represented in senior leadership roles whose

managers may not recognize certain issues as barriers or obstacles Negotiating at Work is rooted in real life cases of professionals from a wide range of industries and organizations both national and international Strategies to get the other person to the table and engage in creative problem solving even when they are reluctant to do so Tips on how to recognize opportunities to negotiate bolster your confidence prior to the negotiation turn asks into a negotiation and advance negotiations that get stuck A rich examination of research on negotiation conflict management and gender By using these strategies you can negotiate successfully for your job and your career in a larger field you can also alter organizational practices and policies that impact others
