Women And Wars Contested Histories Uncertain Futures:

Women and Wars Carol Cohn, 2013-09-04 Where are the women In traditional historical and scholarly accounts of the making and fighting of wars women are often nowhere to be seen With few exceptions war stories are told as if men were the only ones who plan fight are injured by and negotiate ends to wars As the pages of this book tell though those accounts are far from complete Women can be found at every turn in the gendered phenomena of war Women have participated in the making fighting and concluding of wars throughout history and their participation is only increasing at the turn of the 21st century Women experience war in multiple ways as soldiers as fighters as civilians as caregivers as sex workers as sexual slaves refugees and internally displaced persons as anti war activists as community peace builders and more This book at once provides a glimpse into where women are in war and gives readers the tools to understand women's told and untold war experiences in the greater context of the gendered nature of global social and political life

Women and Wars Carol Cohn, 2013 Where are the women In traditional historical and scholarly accounts of the making and fighting of wars women are often nowhere to be seen With few exceptions war stories are told as if men were the only ones who plan fight are injured by and negotiate ends to wars As the pages of this book tell though those accounts are far from complete Women can be found at every turn in the gendered phenomena of war Women have participated in the making fighting and concluding of wars throughout history and their participation is only increasing at the turn of the 21st century Women experience

The Oxford Handbook of Women, Peace and Security Sara E. Davies, Jacqui True, 2019 Passed in 2000 the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women Peace and Security WPS agenda This agenda is an international policy framework addressing the gender specific impacts of conflict on women and girls including protection against sexual and gender based violence promotion of women's participation in peace and security processes and support for women's roles as peace builders in the prevention of conflict and rebuilding of societies after conflict The handbook addresses the concepts and early history behind WPS international institutions involved with the WPS agenda the implementation of WPS in conflict prevention and connections between WPS and other UN resolutions and agendas

Women and Militant Wars Swati Parashar, 2014-03-05 This book explores women's militant activities in insurgent wars and seeks to understand what women do in wars In International Relations inter state conflict anti state armed insurgency and armed militancy are essentially seen as wars where collective violence against civilians and security forces is used to achieve political objectives Extending the notion of war as politics of injury to the armed militancy in Indian administered Kashmir and the Tamil armed insurgency in Sri Lanka this book explores how women participate in militant wars and how that politics not only shapes the gendered understandings of women's identities and bodies but is in turn shaped by them The case studies discussed in the book offer new comparative insight into two different and most prevalent forms of insurgent wars today religio political and ethno nationalist Empirical analyses of women's roles in the Sri Lankan Tamil militant group

the LTTE and the logistical ideological support women provide to militant groups active in Indian administered Kashmir suggest that these insurgent wars have their own gender dynamics in recruitment and operational strategies Thus *Women and Militant Wars* provides an excellent insight into the gender politics of these insurgencies and women s roles and experiences within them This book will be of much interest to students and scholars of critical war and security studies feminist international relations gender studies terrorism and political violence South Asia studies and IR in general *War, Women and Post-conflict Empowerment* Josephine Beoku-Betts, Fredline A. M'Cormack-Hale, 2022-01-13 Since the 1991 2002 civil conflict ended in Sierra Leone the country has failed to translate the accomplishments of women s involvement in bringing the war to an end into meaningful political empowerment This is in marked contrast to other post conflict countries which have increased the political participation of women in elected and appointed office increased the representation of women in leadership positions and enacted constitutional reforms promoting women s rights Written by Sierra Leonean and Africanist scholars and experts from a broad range of disciplines this unique volume analyses the historical and contextual factors influencing women s political economic and social development in the country In drawing on a diverse array of case studies from health to education refugees to international donors the contradictions successes and challenges of women s lives in a post conflict environment are revealed making this an essential book for anyone involved in women and development *Conflict Areas in the Balkans* Pinar Yürür, Arda Özkan, 2020-10-27 The situation in the Balkans such as the solution to the status of Kosovo is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern Western relations On the other hand a successful solution to the problem in the Balkans could serve as a model for solving the Muslim Christian tensions elsewhere in the world It is the intention of this book to contribute proposals for solutions to the problems of Balkans The starting principle for the solutions to be effective is that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union *Gender and Peacebuilding* Maureen P. Flaherty, Thomas G. Matyók, Sean Byrne, Hamdesa Tusso, 2015-10-16 The twenty first century has brought with it a shift from the notion of human security being located in secure national borders to the need to secure the safety freedom and dignity of all Despite efforts to equalize women s status in the world evidenced by changes in many international projects requiring a gender focus women and men experience most of the world in very different ways according to gender Further the reality is that humans who do not all fall neatly into one of these categories male or female often find their lives further challenged In the 1980s Peace and Conflict Studies first began to acknowledge and study the different experiences males and females have during war and peace Since then there

have been books about women and war women working at grassroots levels to build peace women and transitional justice women and peace education and women's views of human security All of these works have contributed to the discourse of our changing world This book brings together some of those themes and voices and adds more with the final product being more than the sum of its parts We add to the conversation a book that considers foundational fundamental issues that span from the interpersonal to the global Many of the chapters describe empirical research completed with author and community shared here for the first time Part One is a collection of case studies documenting challenges and responses to peacebuilding by women from various parts of the world Part Two focuses on Peace and Conflict Studies PACS as a discipline examining not only what is but also what should be taught This section critiques today's efforts at teaching Peace and Conflict Studies and provides suggestions of how this important work might be shared in more open and equitable ways Part Three enters territory found even less in the PACS literature In this section our authors confront patriarchy engage in a discussion about the contribution queer theory makes to PACS and tussle with the notion of inclusivity with considerations of both gender and disability It then ends with a discussion about the contribution feminist methodologies make to PACS **Invisible Veterans**

Kate Hendricks Thomas, Kyleanne Hunter, 2019-07-19 Spotlights the challenges faced by our increasing cadre of military women when their service ends and they become civilians Combining research with narrative this book exposes common threads of lived experience and reviews the latest data on military women and their healthy reintegration into civilian society Female veterans share their stories of seeking to be seen in a culture where they don't quite fit and their struggles to find community and friendship Some fought during the Iraq and Afghanistan wars as the first women in combat in American history How and where for example does a female combat Marine find her tribe once she leaves the service Through the stories of these courageous yet entirely human women readers learn about the experiences of a new and often forgotten generation of veterans about the challenges surrounding family and career choices that millions of American women face and ultimately about sacrifice resiliency loss and love This book will inform readers with an interest in female veterans and women's health and mental health issues as well as researchers students and professionals working in fields encompassing women's psychology health and social work **Handbook on Rural and Remote Education** Jerry D.
