Richard Sharpley, Philip R. Stone

The Ulysses Factor Evaluating Visitors In Tourist Settings Recent Research In Psychology:

The Ulysses Factor Philip Pearce, 2012-12-06 In 1982 when my book *The Social Psychology of Tourist Behaviour* was published it was almost possible to review academic research on tourism In 1988 in a book of similar scale such a review is almost impossible The aim of the present volume is therefore to outline a body of work which adopts a consistent theme and method in exploring the topic of tourism The approach is one of emphasising tourists reactions and behaviours The work is both behavioural and cognitive and stems principally from applied traditions in social and environmental psychology The examples of tourist studies tend to be Australian British and North American principally because work elsewhere in psychological studies of tourists is less well organised The nationality of the researchers should not however confine the application of the research findings since while the examples may be specific the results are applicable in Brisbane Bognor or Bogota The book is intended not just for academic tourism researchers but also for all psychologists so that they might note an understudied phenomenon within their discipline For leisure researchers it is hoped that it will provide an opportunity for them to see developments parallel to their own research efforts in studying recreational behaviour Is it also a volume for tourism managers and executives In part it is and the sections such readers might find of particular interest are Chapters 1 2 3 and 9

Demystifying Theories in Tourism Research Kelly Bricker, Holly Donohoe, 2015-12-04 It often seems that there is more confusion than consensus regarding tourism theory Does tourism have theories it can truly own or does it just borrow from other academic disciplines It can be difficult to understand the theories and conceptual frameworks available and how to apply these ideas to a research endeavour This book reviews theoretical perspectives on tourism from planning and management through marketing and host communities to the tourism consumers themselves Covering issues such as tour guiding rural tourism development and destination image it provides a complete guide to the industry Including pedagogical features throughout this book is an accessible approach to a controversial subject

Routledge Handbook of the Tourist Experience Richard Sharpley, 2021-11-17 Routledge Handbook of the Tourist Experience offers a comprehensive synthesis of contemporary research on the tourist experience It draws together multidisciplinary perspectives from leading tourism scholars to explore emergent tourist behaviours and motivations This handbook provides up to date critical discussions of established and emergent themes and issues related to the tourist experience from a primarily socio cultural perspective It opens with a detailed introduction which lays down the framework used to examine the dynamic parameters of the tourist experience Organised into five thematic sections chapters seek to build and enhance knowledge and understanding of the significance and meaning of diverse elements of the tourist experience Section 1 conceptualises and understands the tourist experience through an exploration of conventional themes such as tourism as authentic and spiritual experience as well as emerging themes such as tourism as an embodied experience Section 2 investigates the new developing tourist demands and motivations and a growing interest in the travel career Section 3 considers the significance motives practices and

experiences of different types of tourists and their roles such as the tourist as photographer Section 4 discusses the relevance of place to the tourist experience by exploring the relationship between tourism and place The last section Section 5 scrutinises the role of the tourist in creating their experiences through themes such as transformations in the tourist role from passive receiver of experiences to co creator of experiences and external mediators in creating tourist experiences This handbook is the first to fill a notable gap in the tourism literature and collate within a single volume critical insights into the diverse elements of the tourist experience today It will be of key interest to academics and students across the fields of tourism hospitality management geography marketing and consumer behaviour

Tourist Experience Richard Sharpley, Philip R. Stone, 2010-10-04 To consume tourism is to consume experiences An understanding of the ways in which tourists experience the places and people they visit is therefore fundamental to the study of the consumption of tourism Consequently it is not surprising that attention has long been paid in the tourism literature to particular perspectives on the tourist experience including demand factors tourist motivation typologies of tourists and issues related to authenticity commodification image and perception However as tourism has continued to expand in both scale and scope and as tourists needs and expectations have become more diverse and complex in response to transformations in the dynamic socio cultural world of tourism so too have tourist experiences Tourist Experience provides a focused analysis into tourist experiences that reflect their ever increasing diversity and complexity and their significance and meaning to tourists themselves Written by leading international scholars it offers new insights into emergent behaviours motivations and sought meanings on the part of tourists based on five contemporary themes determined by current research activity in tourism experience dark tourism experiences experiencing poor places sport tourism experiences writing the tourist experience and researching tourist experiences methodological approaches The book critically explores these experiences from multidisciplinary perspectives and includes case studies from a wide range of geographical regions By analyzing these contemporary tourist experiences the book will provide further understanding of the consumption of tourism
