Strolling Spectator (Routledge Revivals) John Rignall, 2016-01-29 The classic realist text has long been derided by post structuralist critics as an unsophisticated and reactionary form In this study first published in 1992 John Rignall makes a powerful case for the rehabilitation of realism as a self aware and reflexive genre Using the novels of Scott Balzac Dickens George Eliot Flaubert James Ford and Conrad Rignall argues for an understanding of realism through the recurrent figure of the fl neur The fl neur is the strolling spectator whose problematic vision both of and in the novel makes him the representative figure of the realist text A significant contribution to the field this title will be of particular view to students of realism literary theory and comparative literature *The Appropriate Form* Barbara Hardy, 2014-01-13 In this substantial essay on the novel first published in 1964 Barbara Hardy distinguishes three integral aspects of the art of fiction story the working out of a moral problem and truthfulness defined as the lively representation of reality From this standpoint she discusses and elucidates some characteristic excellences and limitations of a number of major novels and novelists including Defoe Charlotte Bront George Eliot Meredith James Hardy E M Forster and D H Lawrence *The Politics of Play* Aubrey

Gabel, 2025-10-15 Showing the political importance of play in postwar French literature In postwar France authors approached writing ludically placing rules and conditions on language and on the context of composition itself They eliminated e s and feminized texts they traveled according to strict rules and invented outright silly public personas *The Politics of Play* Oulipo and the Legacy of French Literary Ludics is a comprehensive examination of how and why French authors turned to these ludic methods to grapple with their political moment These writers were responding to a range of historical upheavals from the rise and fall of French feminist and Third Worldist groups to the aftermath of international socialism both at home in the former Parisian Belt and in France more broadly and abroad in post Yugoslavia Balkan states and elsewhere Juxtaposing an array of case studies and drawing on cross disciplinary methodologies Aubrey Gabel reads three generations of the formalist literary group Oulipo including Raymond Queneau Georges Perec and Jacques Jouet alongside writers not traditionally deemed ludic or sometimes not even conventionally known as novelists such as the lesbian activist writer Monique Wittig and the editor Fran ois Maspero Gabel argues that literary ludics serve as both an authorial strategy and a political form playful methods allow writers not only to represent history in code but also to intervene

American Literature and Culture in an Age of Cold War Steven Belletto, Daniel Grausam, 2012-10-01 The time is right for a critical reassessment of Cold War culture both because its full cultural impact remains unprocessed and because some of the chief paradigms for understanding that culture confuse rather than clarify A collection of the work of some of the best cultural critics writing about the period American Literature and Culture in an Age of Cold War reveals a broad range of ways that American cultural production from the late 1940s to the present might be understood in relation to the Cold War Critically engaging the reigning paradigms that equate postwar U S culture with containment culture the authors present suggestive revisionist claims Their essays draw on a literary archive including the works of John Updike Joan Didion Richard E Kim Allen Ginsberg Edwin Denby Alice Childress Frank Herbert and others strikingly different from the one typically presented in accounts of the period Likewise the authors describe phenomena such as the FBI s surveillance of writers especially African Americans biopolitics development theory struggles over the centralization and decentralization of government and the cultural work of Reaganism that open up new contexts for discussing postwar culture Extending the timeline and expanding the geographic scope of Cold War culture this book reveals both the literature and the culture of the time to be more dynamic and complex than has been generally supposed

Public School Literature, Civic Education and the Politics of Male Adolescence Jenny Holt, 2016-12-05 During the nineteenth and early twentieth centuries

British society gradually began to see adolescence as a distinct social entity worthy of concentrated study and debate. Jenny Holt argues that the social construction of the public schoolboy, a figure made ubiquitous by a huge body of fictional, biographical and journalistic work, had a disproportionate role to play in the development of social perceptions of adolescence and in forming ideas of how young people should be educated to become citizens in an age of increasing democracy. With attention to an admirably wide range of popular books as well as examples from the periodical press, Jenny Holt begins with a discussion of the ideas of late eighteenth century social radicals and ends with the First World War when the more serious public school literature which sought to involve juvenile readers in complex social and political issues declined suddenly in popularity. Along the way, Jenny Holt considers the influence of Victorian Evangelical thought, Social Darwinism and the early twentieth century National Efficiency movement on concepts of adolescence. Whether it is shedding new light on well known texts by Thomas Hughes and Rudyard Kipling, providing a fascinating discussion of works written by boys themselves or supplying historical context for the development of the concept of adolescence, this book will engage not only scholars of childhood and children's literature but Victorianists and those interested in the history of educational practice.
