Beyond the Translator's Invisibility Peter J. Freeth, Rafael Treviño, 2024-01-08

on concepts from fields such as sociology the digital humanities and interpreting studies to develop and operationalize theoretical understandings of translator visibility beyond these existing criticisms and limitations Through empirical case studies spanning areas including social media research reception studies institutional translation and literary translation this volume demonstrates the value of understanding the visibilities of translators and translation in the plural and adds much needed nuance to one of translation studies most pervasive polarizing and imprecise concepts
