The Trouble With Empire Challenges To Modern British Imperialism:

The Trouble with Empire Antoinette M. Burton, 2015 While imperial blockbusters fly off the shelves there is no comprehensive history dedicated to resistance in the 19th and 20th century British Empire *The Trouble with Empire* is the first volume to fill this gap offering a brief but thorough introduction to the nature and consequences of resistance to British imperialism Historian Antoinette Burton's study spans the 19th and 20th centuries when discontented subjects of empire made their unhappiness felt from Ireland to Canada to India to Africa to Australasia in direct response to incursions of military might and imperial capitalism *The Trouble with Empire* offers the first thoroughgoing account of what British imperialism looked like from below and of how tenuous its hold on alien populations was throughout its long unstable life By taking the long view moving across a variety of geopolitical sites and spanning the whole of the period 1840-1955 Burton examines the commonalities between different forms of resistance and unveils the structural weaknesses of the British Empire

0 *Anti-Colonialism and the Crises of Interwar Fascism* Michael Ortiz, 2023-01-12 What is fascism Is it an anomaly in the history of modern Europe Or its culmination In *Anti Colonialism and the Crises of Interwar Fascism* Michael Ortiz makes the case that fascism should be understood in part as an imperial phenomenon He contends that the Age of Appeasement 1935-1939 was not a titanic clash between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied empires Historians have long debated the extent to which Western imperialisms served as ideological and intellectual precursors to European fascisms To date this scholarship has largely employed an inside out methodology that examines the imperial discourses that pushed fascist regimes outward into Africa Asia and the Americas While effective such approaches tend to ignore the ways in which these places and their inhabitants understood European fascisms Addressing this imbalance *Anti Colonialism* adopts an outside in approach that analyses fascist expansion from the perspective of Indian anti colonialists such as Jawaharlal Nehru Subhas Bose and Mohandas Gandhi Seen from India the crises of Interwar fascism the Second Italo Ethiopian War Spanish Civil War Second Sino Japanese War Munich Agreement and the outbreak of the Second World War were yet another eruption of imperial expansion analogous although not identical to the Scramble for Africa and the Treaty of Versailles Whether fascist democratic or imperialist Europe's great powers collectively negotiated the fate of smaller nations

Democracy, Federalism, the European Revolution, and Global Governance Andrea Bosco, 2020-06-10 The European Union is facing today the greatest crisis since its creation Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union's construction democracy and federalism and the first who tried to realise in June 1940 a

European federation on the basis of an Anglo French union This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet Europe was indeed the first region of the world where the barriers between national states fell and a post national political identity emerged complementary to national political identities It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance First Class Passengers on a Sinking Ship Richard Lachmann,2020-01-14 A history of why great powers decline from Spain to the United States The extent and irreversibility of US decline is becoming ever more obvious as America loses war after war and as one industry after another loses its technological edge Lachmann explains why the United States will not be able to sustain its global dominance and contrasts America s relatively brief period of hegemony with the Netherlands similarly short primacy and Britain s far longer era of leadership Decline in all those cases was not inevitable and did not respond to global capitalist cycles Rather decline is the product of elites success in grabbing control over resources and governmental powers Not only are ordinary people harmed but also capitalists become increasingly unable to coordinate their interests and adopt policies and make investments necessary to counter economic and geopolitical competitors elsewhere in the world Conflicts among elites and challenges by non elites determine the timing and mold the contours of decline Lachmann traces the transformation of US politics from an era of elite consensus to present day paralysis combined with neoliberal plunder explains the paradox of an American military with an unprecedented technological edge unable to subdue even the weakest enemies and the consequences of finance s cannibalization of the US economy **East Asia in the World** Stephan Haggard,David C. Kang,2020-10-29 This accessible collection examines twelve historic events in the international relations of East Asia **Chinese Indentured Labour in the Dutch East Indies, 1880-1942** Gregor Benton,2022-09-19 This book offers a comprehensive account of indentured Chinese labour in the Dutch East Indies between 1880 and 1942 particularly in its twilight years after 1917 The author shows that Chinese indenture started and evolved differently from other forms of bonded labour in Southeast Asia and globally including its Indian and Javanese variants This difference is reflected in its lexicon which was in part special to the Chinese strain Using fieldwork findings from the tin islands of Bangka and Belitung and the Deli plantations on Sumatra as well as archival materials in Dutch Chinese and other languages held in libraries in Java Nanjing Taipei Hong Kong and Leiden this book presents cutting edge research that sets out to contribute to the revising of our historical understanding of indenture **Information and the History of Philosophy** Chris
