Bringing Down the House Angela Casella, 2022-03-07 They should be a disaster in the making Good thing they don't believe in words like should Nicole People think I'm crazy especially my ex boyfriends I prefer the term misunderstood Still there's no denying I have a stunning ability to make bad decisions like seducing the lead actor of the theater company where I just accepted a job An HR job In my defense Damien Mitchell is the most gorgeous man alive and worse he's interesting Besides I'm ninety percent sure my new boss is up to something shady Why should I behave if she won't I fully intend to find out what she's doing but in the meantime I'm reeled in by Damien The thing is it turns out he isn't just a fantastic actor at a crappy theater He's Well it's his secret But I promise it's a good one I'm going to help him with that and with saving the theater Whether he wants me to or not Damien I'm the only child of two rich narcissists I'm used to being alone I like it But Nicole's not the kind of woman who can be kept at a distance and to my surprise I don't want to stay away She sets my blood on fire and pisses me off and makes me feel alive in a way I'd previously only experienced onstage I tell her my secrets I show her my scars I let her in We're both screwed up so there's every chance we'll destroy each other but she's not the only one who's prone to bad decisions A full length standalone prequel to the Bad Luck Club series

Ims, Peter Rona, 2018-03-05 This volume celebrates the work of Laszlo Zsolnai a leading researcher and scholar in the field of the ethical and spiritual aspects of economic life who has made significant contributions to the connection between ethics spirituality aesthetics and economic theory The book offers a

selection of essays concerned with the ethical spiritual and aesthetic context within which economics as a social studies discipline should be situated in order to avoid the sort of dehumanising consequences that theories based on utility maximisation and rational choice necessarily entail It presents the economic activities of human beings not as some sort of preordained obedience to universal laws that operate independently of other human concerns but rather as a part of the human desire for the Aristotelian good life It looks at the various considerations moral spiritual and aesthetic that take part in the formation of economic decisions in sharp contrast with theories that purport to explain economic phenomena solely on the basis of utility maximisation
