MacIntyre, 2004 First published in 1958 The Unconscious still ranks as one of the most important and clearly written philosophical inquiries into the fundamental concept of psychoanalysis The Unconscious Alasdair MacIntyre, 2004-02-13 *The Unconscious* A. C. MacIntyre, 1973 *The Unconscious* Robert Conquest, 1958 The Unconscious Alasdair Chalmers MacIntyre, 2004-02-24 This edition includes a substantial new preface by the author in which he discusses repression determinism transference and practical rationality and offers a comparison of Aristotle and Lacan on the concept of desire MacIntyre takes the opportunity to reflect both on the reviews and criticisms of the first edition and also on his own philosophical stance **A Conceptual and Therapeutic Analysis of Fear** Sergio Starkstein, 2018-04-17 There is an important gap in the philosophical literature concerning the concept of fear and its remedies and this book has been designed to examine different concepts of fear that inform its therapy Structured as a historical philosophical investigation of the concept of fear this book is not a purely historical analysis of fear but also provides a broad brushwork rendition of the main concepts of fear as presented by selected philosophers and thinkers and how they have approached its therapy *The Analysis of Ideology* Raymond Boudon, 1989 This work by one of Europe's foremost social theorists presents a critical history of the concept of ideology The author's discussion ranges from the early conceptions of ideology to its current usage in the works of Barthes Foucault Habermas and others *Phenomenology, Language and the Social Sciences* Maurice Roche, 2013-10-23 This book looks at two revolutions in philosophy phenomenology and conceptual analysis which have been influential in sociology and psychology It discusses humanistic psychiatry and sociological approaches to the specific area of mental illness which counter the ultimately reductionist implications of Freudian psychoanalytic theory The book originally published in 1973 concludes by stating the broad underlying themes of the two forms of humanistic philosophy and indicating how they relate to the problems of theory and method in sociology **Virginia Woolf and the Migrations of Language** Emily Dalgarno, 2011-10-06 Virginia Woolf's rich and imaginative use of language was partly a result of her keen interest in foreign literatures and languages mainly Greek and French but also Russian German and Italian As a translator she naturally addressed herself both to contemporary standards of translation within the university but also to readers like herself In *Three Guineas* she ranged herself among German scholars who used *Antigone* to critique European politics of the 1930s Orlando outwits the censors with a strategy that focuses on Proust's untranslatable word *The Waves* and *The Years* show her looking ahead to the problems of postcolonial society where translation crosses borders In this in depth study of Woolf and European languages and literatures Emily Dalgarno opens up a rewarding new way of reading her prose
