The Uniqueness Of China's Development Model 1842-2049:

Uniqueness Of China's Development Model, The: 1842-2049 Paul Kwok-wah Yip, 2012-07-25 The book discusses the development model of China which has now overtaken Japan as the world's second largest economy. This remarkable economic achievement has not followed the Western world's favorite developmental tools of freedom, democracy, and a market-driven economy, but rather China's unique model of one-party authoritarian rule with a mixed economy. The Middle Kingdom's way of development has largely questioned the West's core values: freedom and democracy. The book argues that the model is based on the country's 3,000-year-old civilization forged by the efforts, innovations, trial and error process of several recent generations and guided by the Chinese Communist Party in the past 60 years. *The Uniqueness of China's Development Model, 1842-2049* Kwok-wah Yip, 2012 The book discusses the development model of China which has now overtaken Japan as the world's second largest economy. This remarkable economic achievement has not followed the Western world's favorite developmental tools of freedom, democracy, and a market-driven economy, but rather China's unique model of one-party authoritarian rule with a mixed economy. The Middle Kingdom's way of development has largely questioned the West's core values: freedom and democracy. The book argues that the model is based on the country's 3,000-year-old civilization forged by the efforts, innovations, trial and error process of several recent generations and guided by the Chinese Communist Party in the past 60 years. **China's State Enterprises** Ran Li, Kee Cheok Cheong, 2018-06-27 This book focuses on the nature and significance of China's state enterprises which have undergone substantial changes since China's economic liberalization in 1978. It argues that much of the criticism is based on mistaken premises where even the term state-owned enterprises is a misnomer given that the emphasis is much less on ownership than on control. Using numerous case studies, this book highlights the extent to which these enterprises have evolved in response to reforms and provides an in-depth analysis of their role in China's outward investment strategy in the Belt and Road initiative. This role speaks to their growing influence as China expands her global footprint. **The Routledge Handbook of Chinese Studies** Chris Shei, Weixiao Wei, 2021-05-30 This Handbook approaches Chinese Studies from an interdisciplinary perspective while attempting to establish a fundamental set of core values and tenets for the subject in relation to the further development of Chinese Studies as an academic discipline. It aims to consolidate the current findings in Chinese Studies, extract the essence from each affiliated discipline, formulate a concrete set of ideas to represent the Chineseness of the subject, establish a clear identity for the discipline, and provide clear guidelines for further research and practice. Topics included in this Handbook cover a wide spectrum of traditional and newly added concerns in Chinese Studies, ranging from the Chinese political system and domestic governance to international relations, Chinese culture, literature and history, Chinese sociology, gender, middle class, nationalism, home ownership, dating, and Chinese opposition and activism. The Handbook also looks at widening the scope of Chinese Studies, Chinese psychology, postcolonialism, and China, Chinese science, and climate change, and some

illustrations of innovative Chinese Studies research methods The Routledge Handbook of Chinese Studies is an essential reference for researchers and scholars in Chinese Studies as well as students in the discipline *Alliance Capitalism, Innovation and the Chinese State* Victoria Higgins, 2015-09-15 This book analyses how key systems integration technical pressures and the increasing use of collaborative alliances for market and product development are impacting on the socio technical policy directives of Chinese State leaders and the strategic behaviour of key Chinese high technology firms operating in the global wireless sector

China, India and Southeast Asia Edmund Terence Gomez, Kee Cheok Cheong, Vamsi Vakulabharanam, 2018-12-07 This volume studies the outcomes of the two way flow of investments and people between China and India and Southeast Asia These cross border flows have led to new settlements in Southeast Asia from which new outlooks have emerged among locally born generations that have given rise to new forms of solidarity and identification The advent of new generations of ethnic Chinese and Indians in Southeast Asia with no ties to China or India has spawned important debates about identity shifts which have not been registered by government leaders in Southeast Asia China and India as reflected in policy statements and investment patterns Identity changes are assessed in forms where they best manifest themselves in social life and in business ventures forged or unsuccessfully nurtured through tie ups involving foreign and domestic capital A state society distinction is employed to determine how the governments of these rapidly developing countries envision development through state intervention as well as with the employment of highly entrepreneurial ethnic groups and the outcomes of this on their societies and on their economies The chapters were originally published as a special issue in The Round Table

The Culture of Leadership in Contemporary China Paul Michael Linehan, 2017-12-06 The resurgence of Confucianism Daoism and Buddhism in the context of Chinese leadership values has emerged as a foundation for a new generation of leaders The once in a decade transition of China s leadership witnessed the ascendancy of a consensus oriented fifth generation of leaders supporting a central authoritative

figure whose priority will likely include the reconciliation of a waning communist ideology juxtaposed with its ostensible embrace of capitalism. How will Chinese Communist Party authority ideology and control address the encroachment of Western values that are centered on Roman law, Greek philosophy and Christian religion which prioritizes individual freedom and democracy? This book examines the role of traditional Chinese values, ideology and philosophy as a key determinant in modern China's leadership succession. The author asserts that as communist ideology wanes, Chinese leaders will turn to their own traditional values found in Confucianism, Daoism and Buddhism to establish legitimacy to rule as they seek to promote Chinese prominence and greatness in the world. The author's research assesses China's promotion of its own traditional values in rejecting foreign value influence. Since the inception of modern China at the beginning of the 20th century, China's leadership transition has evolved from an authoritarian cult-like dictatorship to a consensus-oriented process. In researching this metamorphosis, this book offers social, political, cultural and historical perspectives to demonstrate that Chinese human values and character factors have risen in prominence as key elements in the mandate of Chinese governance and leadership. The author concludes that Chinese leadership values and its study and diffusion across sectors of Chinese leadership, including business organizations and government, have become a means to accentuate Chinese values as a viable alternative to Western claims of absolute and universally accepted values.

The Diffusion of Western Economic Ideas in East Asia Malcolm Warner, 2016-12-19. This book examines the diffusion of economic ideas in East Asia, assessing the impact of external ideas on internal theory and practice. It considers economists from Adam Smith onwards, including Marx, Keynes, Hayek and contemporary economists, and covers the subject both historically and also includes present day and likely future developments. The book covers all the major countries of East Asia and pays particular attention to specific economists who have had a strong impact in specific countries and to important developments in economic theory in East Asia, exploring how far these have been driven by Western economic ideas. This book will be welcomed by students and scholars of East Asia and South East Asia as well as those interested in economics, economic history and management.

Protecting Minority Rights in African Countries John M. Mbaku, 2018-01-26. In this enlightening book, John Mukum Mbaku analyses the main challenges of constitutional design and the construction of governance institutions in Africa today. He argues that the central issues are providing each country with a constitutional order that is capable of successfully managing sectarian conflict and enhancing peaceful coexistence, protecting the rights of citizens, including those of minorities, minimizing the monopolization of political space by the majority to the detriment of minorities and effectively preventing government impunity. Mbaku offers a comprehensive analysis of various approaches to the management of diversity and shows how these approaches can inform Africa's struggle to promote peace and good governance. He explores in depth the existence of dysfunctional and anachronistic laws and institutions inherited from the colonial state and the process through which laws and institutions are formulated or constructed, adopted and amended. A close look at the constitutional experiences of the American Republic

provides important lessons for constitutional design and constitutionalism in Africa. Additionally, comparative politics and comparative constitutional law also provide important lessons for the management of diversity in African countries. Mbaku recommends state reconstruction through constitutional design as a way for each African country to provide itself with laws and institutions that reflect the realities of each country, including the necessary mechanisms and tools for the protection of the rights of minorities. From students and scholars to NGOs, lawyers, and policymakers, this unique and judicious book is an essential tool for all those seeking to understand and improve governance and development in Africa.
