Imagination and Social Perspectives Michela Summa, Thomas Fuchs, Luca Vanzago, 2017-10-03 Our experience of other individuals as minded beings goes hand in hand with the awareness that they have a unique epistemic and emotional perspective on the experienced objects and situations The same object can be seen from many different points of view an event can awaken different emotional reactions in different individuals and our position takings can in part be mediated by our belonging to some social or cultural groups All these phenomena can be described by referring to the metaphor of perspective Assuming that there are different and irreducible perspectives we can take on the experienced world and on others as experiencing the same world the phenomenon of mutual understanding can consistently be understood in terms of perspectival flexibility This edited volume investigates the different processes in which perspectival flexibility occurs in social life and particularly focuses on the constitutive role of imagination in such processes It includes original works in philosophy and psychopathology showing how perspectival flexibility and social cognition are grounded on the interplay of direct perception and imagination

Visual Support for Children with Autism Spectrum Disorders Vera Bernard-Opitz, Anne Häussler, 2011 Combining their years of experience working with individuals on the autism spectrum the authors bring practical ideas and teaching methods for offering visual supports to students with autism spectrum disorders Danny's People Virginia Bovell, 2024-08-22 Society disables us more than autism ever could My brain s still fizzing my heart s still sore and I m already re reading Sally Phillips Virginia s son Danny has a way of lighting up a room He s warm personable and has an infectious laugh He forms lasting relationships and has known his best friend since they were little He is also nonverbal and autistic and requires round the clock care and a liquid diet And for this reason there are many who would rather not encounter Danny Challenging the view that autism is something that needs to be cured Virginia Bovell testifies to the extraordinary care Danny has received for over 30 years and the everyday kindness and decency of the people the band of angels that surround him She asks us to consider what makes a thriving individual versus an inadequate one what it means to be ill versus what it means to not to conform what roles society values and rewards and how humans might flourish outside of failing political and economic systems An inspiring testament and a celebration of neurodiversity Manni Coe author of Brother Do You Love Me **Art from Your Core** Kate Kretz, 2024-02-08 This book guides artists through the

discovery and development of the art that they alone were born to create Through real life examples and exercises we tear down the cultural educational and psychological obstacles to finding authentic visual voice stripping away years of assumptions external and self imposed limiting parameters We learn how to listen to the Universe and get out of the way when work wants to come through us We construct a core foundation unique to each artist one that will grow along with them in their artistic practice Artists will discover their own singular visual vocabulary by mining their personal history psyche and world view to reveal new creative directions and learn how to intensify and develop their core ideas to make them more resonant and complex We explore methodologies to tap into the subconscious cultivate breakthroughs create environments to maximize the gestation of ideas instill bravery and do meaningful research to produce deeply layered works of art While designed for college students professional artists will also find it allows them to get to that illusive next level in their work the one that calls to them haunts them in their dreams yet remains unarticulated in their practice In addition to helping undergraduate and graduate students who are looking to identify articulate and hone their vocabulary it can serve as a tool for more established artists to step up or refresh their practice It is the kind of book that artists will keep on the studio shelf to pick up time and time again as their responses to the exercises will change throughout the course of their career There are extensive lists exercises and questionnaires anecdotes of art historically significant artists and detailed descriptions of the methodologies they employ to tap into the subconscious various types of research on creative breakthroughs and how to apply it to your own process helpful suggestions to create an environment lifestyle to maximize the gestation of ideas and how to do meaningful research to produce deeply layered works of art While the tone of the book is often earnest and spiritual in an art is religion kind of way Kretz is aiming for a straightforward accessible kind but no nonsense tenor with some humor and nurturing tough love when needed to say some of the things that artists need to hear but few people have the guts to tell them

Battleground: Science and Technology Peter H. Denton, Sal

Restivo, 2008-10-30 The modern world is filled with debate and controversy and science and technology the most characteristic features of the modern world are not immune Science and technology are implicated in many if not all of the issues troubles and problems students are likely to come across in their classes and in their everyday lives Science and technology serve as a primary pathway to understanding front page headlines on everything from war to AIDS and from oil exploration to global warming Battleground Science and Technology examines the most hot button issues involving science and technology and provides a balanced assessment of the arguments on all sides of the often strident debates The approximately 100 issues examined in Battleground Science and Technology include topics in the brain sciences including the controversies over the cause of autism and the reliability of memory as well as the debates over parapsychology debates surrounding information technology such as only privacy the impact of video games on social behavior and the advent of virtual reality the complexity over drugs and medications such as the testing of the efficacy of medications the war on

recreational drugs and the costs of pharmaceutical research and hot button topics that are constantly in the news such as evolution and creationism DNA testing stem cell research and genetically modified organisms Each entry provides a list of accessible resources useful for further research
