Heroes, Heroines, and Everything in Between Christopher J. Olson, CarrieLynn D. Reinhard, 2017-09-20 Current characters in children's entertainment media illustrate a growing trend of representations that challenge or subvert traditional notions of gender and sexuality From films to picture books to animated television series children's entertainment media around the world has consistently depicted stereotypically traditional gender roles and heterosexual relationships as the normal way that people act and engage with one another Heroes Heroines and Everything in Between Challenging Gender and Sexuality Stereotypes in Children's Entertainment Media examines how this media ecology now includes a presence for nonheteronormative genders and sexualities It considers representations of such identities in various media products e.g comic books television shows animated films films children's literature meant for children e.g toddlers to teenagers The contributors seek to identify and understand characterizations that go beyond these traditional understandings of gender and sexuality By doing so they explore these nontraditional representations and

consider what they say about the current state of children's entertainment media, popular culture and global acceptance of these gender identities and sexualities The Post-Apocalyptic Novel in the Twenty-First Century H. Hicks, 2016-04-08 Since the beginning of the twenty first century major Anglophone authors have flocked to a literary form once considered lowbrow: genre fiction, the post apocalyptic novel. Calling on her broad knowledge of the history of apocalyptic literature, Hicks examines the most influential post apocalyptic novels written since the beginning of the new millennium, including works by Margaret Atwood, David Mitchell, Cormac McCarthy, Jeanette Winterson, Colson Whitehead and Paolo Bacigalupi. Situating her careful readings in relationship to the scholarship of a wide range of historians, theorists and literary critics, she argues that these texts use the post apocalyptic form to reevaluate modernity in the context of the new century's political, economic and ecological challenges. In the immediate wake of disaster, the characters in these novels desperately scavenge the scraps of the modern world. But what happens to modernity beyond these first moments of salvage? In a period when postmodernism no longer defines cultural production, Hicks convincingly demonstrates that these writers employ conventions of post apocalyptic genre fiction to reengage with key features of modernity from historical thinking and the institution of nationhood to rationality and the practices of literacy itself *Girls on Fire* Sarah Hentges, 2018-04-18 Under the threat of climate change, corruption, inequality and injustice, Americans may feel they are living in a dystopian novel come to life. Like many American narratives, dystopian stories often focus on males as the agents of social change. With a focus on the intersections of race, gender, class, sexuality and power, the author analyzes the themes, issues and characters in young adult YA dystopian fiction featuring female protagonists, the *Girls on Fire*, who inspire progressive transformation for the future.
