Historical Dictionary of the Baptists William H. Brackney, 2021-02-15 Baptists are a major group of Christians with a worldwide presence Originating in the English Puritan Separatist tradition of the 17th century Baptists proliferated in North America and through missionary work from England Europe and North America they have established churches associations unions missions and alliances in virtually every country They are among the most highly motivated evangelists of the Christian gospel employing at present in excess of 7 000 domestic and overseas missionaries Important characteristics of the Baptists across their history are the authority of the Scriptures individual accountability before God the priority of religious experience religious liberty separation of church and state congregational independence and a concern for the social implications of the gospel Baptists recognize a twofold ministry deacons and pastors or a threefold order deacons elders pastors

Historical Dictionary of the Baptists Third Edition expands upon the second edition with an updated chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on important events doctrines and the church founders leaders and other prominent figures who have made notable contributions

The A to Z of the Baptists William H. Brackney, 2009-09-16 With 110 million members worldwide Baptists are surpassed only by Roman Catholic and Orthodox groups as the largest segment of Christians The term Baptist has its origins with the Anabaptists the denomination historically linked to the English Separatist movement of the 16th century Although Baptist churches are located throughout the world the largest group of Baptists lives in the Southern United States and the Baptist faith has historically exerted a powerful influence in that region of the country The A to Z of the Baptists relates the history of the Baptist Church through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on important events doctrines and the church founders leaders and other prominent figures who have made notable contributions This volume commemorates the 400th anniversary of the founding of the Baptist movement in 1609

"In the Hands of a Good Providence" Mary V. Thompson, 2008-10-09 Attempts by evangelical Christians to claim Washington and other founders as their own and scholars ongoing attempts to contradict these claims are nothing new Particularly after Washington was no longer around to refute them legends of his Baptist baptism or secret conversion to Catholicism began to proliferate Mount Vernon researcher Mary Thompson endeavors to get beyond the current preoccupation with whether Washington and other founders were or were not evangelical Christians to ask what place religion had in their lives Thompson follows Washington and his family over

several generations situating her inquiry in the context of new work on the place of religion in colonial and postrevolutionary Virginia and the Chesapeake Thompson considers Washington's active participation as a vestryman and church warden as well as a generous donor to his parish prior to the Revolution and how his attendance declined after the war He would attend special ceremonies and stood as godparent to the children of family and friends but he stopped taking communion and resigned his church office Something had changed but was it Washington the church or both Thompson concludes that he was a devout Anglican of a Latitudinarian bent rather than either an evangelical Christian or a Deist The meaning of this description Thompson allows when applied to eighteenth century Virginia gentlemen is far from self evident leaving ample room for speculation
