Gerald Gliddon

This England Spring 1980:

VCs of the First World War: 1914 Gerald Gliddon, 2012-05-30 During the opening four months of the First World War no fewer than forty six soldiers from the British and Commonwealth armies were awarded the Victoria Cross Britain's highest award for gallantry In a series of biographies Gerald Gliddon examines the men and the dramatic events that led to the award of this most coveted of medals and explores the post war experiences of those who survived These men ordinary soldiers from widely differing social backgrounds acted with valour above and beyond the call of duty Their stories and experiences offer a fresh perspective on the opening stages of the war to end wars *Cursing the Basil and Other Folklore of the Garden* Vivian Rich, 1998 The mania for tulip bulbs that caused a Holland stock market crash traditions spells and rituals for finding true love the symbolism of royal wedding bouquets and much more are all described in this exploration into the strange history of many familiar plants *Nuclear Threats, Nuclear Fear and the Cold War of the 1980s* Eckart Conze, Martin Klimke, Jeremy Varon, 2016-11-28 This book brings together cutting edge scholarship from the United States and Europe to address political as well as cultural responses to both the arms race of the 1980s and the ascent of nuclear energy as a second controversial dimension of the nuclear age Diverse in its topics and disciplinary approaches *Nuclear Threats Nuclear Fear and the Cold War of the 1980s* makes a fundamental contribution to the emerging historiography of the 1980s as a whole As of now the era's nuclear tensions have been addressed by scholars mostly from the standpoint of security studies focused on the geo strategic deliberations of political elites and at the level of state policy Yet nuclear anxieties as the essays in this volume document were so pervasive that they profoundly shaped the era's culture its habits of mind and its politics far beyond the domain of policy *The History of England from the Accession of James II* Thomas Babington Macaulay Baron Macaulay, 1907 **The Queen Chronology (2nd Edition)** Patrick Lemieux, Adam Unger, 2018-04-11 REVISED EXPANDED 2ND EDITION The Queen Chronology is a comprehensive account of the studio and live recording and release history of Freddie Mercury Brian May John Deacon and Roger Taylor who joined forces in 1971 as the classic line up of the rock band Queen Years of extensive research have gone into the creation of the Chronology which covers the very beginnings of band members careers their earliest songwriting efforts and recording sessions through the recording and releasing of Queen's 15 original studio albums with their classic line up to the present day solo careers of Brian May and Roger Taylor All of this information is presented date by date in chronological order with detailed descriptions of each song version including those both released and known to be unreleased Every Queen and solo album single non album track edit remix and extended version is examined as are known demos or outtakes pre Queen recordings and guest appearances *An Age of Equipoise? Reassessing mid-Victorian Britain* Martin Hewitt, 2017-07-05 The Age of Equipoise by W L Burn was published in 1964 and became a central text in the canon of interpretations of the Victorian period The book subsequently fell out of favour but recent claims to establish a new interpretative standard have paradoxically prompted

reviewers to cast back to Burn's work as the orthodox standard against which such claims should be judged. The essays in this volume by British and American contributors all engage to varying degrees with the notion of *equipoise* and how it can help to illuminate the mid-Victorian period in ways which alternative formulations cannot. Some of the chapters develop arguments embedded in Burn's own book; others take up issues largely absent in *The Age of Equipoise* such as the position of children, Britain's interaction with the wider world and the threats the period experienced to its concept of masculine identity. Together the essays demonstrate the intricacy and turbulence of the forces of cohesion in Victorian society along with the success of that culture in achieving a working if shifting *modus vivendi*. Moreover, they substantiate the argument that whatever the limitations of Burn's work, *equipoise* deserves rehabilitation as a powerful conceptual framework for making sense of mid-Victorian Britain.

About the Editor: Martin Hewitt is Director of the Leeds Centre for Victorian Studies and editor of the *Journal of Victorian Culture*. With Robert Poole, he has recently produced an edition of *The Diaries of Samuel Bamford 1858-61* (Sutton, 2000).

The houses of history Anna Green, Kathleen Troup, 2016-08-15. *The houses of history* is a clear jargon-free introduction to the major theoretical approaches employed by historians. This innovative critical reader provides accessible introductions to fourteen schools of thought from the empiricist to the postcolonial, including chapters on Marxist history, Freud and psychohistory, the Annales, historical sociology, narrative, gender, public history, and the history of the emotions. Each chapter begins with a succinct description of the ideas integral to a particular theory. The authors then explore the insights and controversies arising from the application of this model, drawing upon debates and examples from around the world. Each chapter concludes with a representative example from a historian writing within this conceptual framework. This newly revised edition of the highly successful textbook is the ideal basis for an introductory course in history and theory for students of history at all levels.

Selected Water Resources Abstracts, 1989. *Birds of Maine* Peter D. Vickery, Charles D. Duncan, Jeffrey V. Wells, William J. Sheehan, 2020-11-03. A comprehensive and beautifully illustrated overview to the birds of Maine. The first comprehensive overview of Maine's incredibly rich birdlife in more than seven decades. *Birds of Maine* is a detailed account of all 464 species recorded in the Pine Tree State. It is also a thoroughly researched, accessible portrait of a region undergoing rapid changes with southern birds pushing north, northern birds expanding south, and once-absent natives like Atlantic Puffins brought back by innovative conservation techniques pioneered in Maine. Written by the late Peter Vickery in cooperation with a team of leading ornithologists, this guide offers a detailed look at the state's dynamic avifauna from the Wild Turkey to the Arctic Tern, with information on migration patterns and timing, current status, and changes in bird abundance and distribution, and how Maine's geography and shifting climate mold its birdlife. It delves into the conservation status for Maine's birds, as well as the state's unusually textured ornithological history involving such famous names as John James Audubon and Theodore Roosevelt, and home-grown experts like Cordelia Stanwood and Ralph Palmer. Sidebars explore diverse topics, including the Old Sow whirlpool that draws multitudes of

seabirds and the famed Monhegan Island a mecca for migrant birds Gorgeously illustrated with watercolors by Lars Jonsson and scores of line drawings by Barry Van Dusen *Birds of Maine* is a remarkable guide that birders will rely on for decades to come Copublished with the Nuttall Ornithological Club *Skiing*, 1979-10 **Ski**, 1979-10 *Daughters of the Shtetl* Susan A. Glenn, 2019-06-30 In this fascinating portrait of Jewish immigrant wage earners Susan A Glenn weaves together several strands of social history to show the emergence of an ethnic version of what early twentieth century Americans called the New Womanhood She maintains that during an era when Americans perceived women as temporary workers interested ultimately in marriage and motherhood these young Jewish women turned the garment industry upside down with a wave of militant strikes and shop floor activism and helped build the two major clothing workers unions **Ski**, 1979-11 **His and Hers** Ann Messenger, 2021-10-21 Exploring territory seldom visited by feminist scholars Ann Messenger in this new book presents eight studies of literary relationships between men and women writers ranging from the Restoration to the end of the eighteenth century The essays show men and women working together praising and criticizing each other s work borrowing and changing each other s plots and characters recording their different perceptions of their common world From Dryden s praise of Anne Killigrew through Gay s and Lady Mary Wortley Montagu s collaboration on a town eclogue Thomas Southerne s dramatizations of novels by Aphra Behn and Eliza Haywood s version of the Spectator to Cornelia Knight s sequel to Rasselas these relationships demonstrate that men and women writers inhabited the same literary world shared the traditions of the mainstream of English literature Most of the women have since faded from view But Messenger suggests the time has come to rediscover them to reassess their work and to revise the commonly accepted canon of literature accordingly Although most of the studies deal with the way women s writing responds to writing by men the Afterword combats the charge that the women s work is derivative Free of critical jargon and ideological strait jacketing *His and Hers* makes some little known writers available and interesting to specialists and nonspecialists feminists and traditionalists alike while it sheds new light on some of the most familiar figures of the period The Appendix reprints some of the shorter works which have been analyzed in detail and summaries in the text help to compensate for the unavailability of some of the women s books The comparative approach suggests a wide and rich field for further research *Shakespeare's Festive World* Francois Laroque, 1993-09-09 This book offers an exciting new perspective on Shakespeare s relation to popular culture *Toward a Feminist Theory of the State* Catharine A. MacKinnon, 1991-09-01 This book presents MacKinnon s powerful analysis of politics sexuality and the law from the perspective of women Using the debate over Marxism and feminism as a point of departure MacKinnon develops a theory of gender centered on sexual subordination and applies it to the state **Report** Rothamsted Experimental Station, 1984 Reports for 1908 1929 include Supplement to the Guide to the experimental plots *Perspectives on Mathematics Education* H. Christiansen, A.G. Howson, M. Otte, 2012-12-06 BACOMET cannot be evaluated solely on the basis of its publications It is important then that the reader with only this volume on which to judge both the

BACOMET activities and its major outcome to date should know some thing of what preceded this book s publication For it is the story of how a group of educators mainly tutors of student teachers of mathematics com mitted themselves to a continuing period of work and self education The concept of BACOMET developed during a series of meetings held in 1978 79 between the three editors Bent Christiansen Geoffrey Howson and Michael Otte at which we expressed our concern about the contributions from mathematics education as a discipline to teacher education both as we observed it and as we participated in it The short time which was at the teacher educator s disposal allied to the limited knowledge and experience of the students on which one had to build raised puzzling problems concerning priorities and emphases The recognition that these problems were shared by educators from many different countries was matched by the fact that it would be fruitless to attempt to search for an internationally or even nationally acceptable solution to our problems Different contexts and traditions rule this out
