Truths Among Us Derrick Jensen, 2011-09-01 From Derrick Jensen acclaimed author of *Endgame* and *The Culture of Make Believe* comes a prescient thought provoking collection of interviews with ten leading writers philosophers teachers and activists To function in this society we are asked to live by lies that humans have the right to take what they want from the earth without giving back that knowledge is limited to that which can be quantified that corporations and governments know what is best for our future Our instinctive outrage at environmental collapse political conspiracy and corporate corruption is stifled by the double

speak of popular opinion telling us that the progress of civilization demands unquestioning allegiance to those in power But the brave voices in Truths Among Us seek to help us acknowledge the values we know in our hearts are right and inspire within us the courage to act on them Among those who share their wisdom here is acclaimed sociologist Stanley Aronowitz who shows us that science is but one lens through which we can discover knowledge Luis Rodriguez poet and peacemaker asks us to embrace gang members as people instead of stereotypes while the brilliant Judith Herman helps us gain a deeper understanding of the psychology of abusers in whatever form they may take Paul Stamets reveals the power of fungi whose intelligence like that of so many nonhumans is often ignored And writer Richard Drinnon reminds us that our spiritual paths need not be narrowed by the limiting mythologies of Western civilization Following How Shall I Live My Life and Resistance Against Empire Jensen s third collection of interviews reinforces a simple premise with which he has long challenged his readers if we shut our ears and eyes to the cacophony of consumption oriented distractions and pause to listen to the wisdom of our own hearts the truths among us will reveal themselves Interviewees include George Gerbner Stanley Aronowitz Luis Rodriguez Judith Herman John Keeble Richard Drinnon Paul Stamets Marc Ian Barasch Martin Prechtel and Jane Caputi

Dreams Derrick Jensen, 2011-01-04 Jensen s furthest reaching book yet Dreams challenges the destructive nihilism of writers like Richard Dawkins and Sam Harris who believe that there is no reality outside what can be measured using the tools of science He introduces the mythologies of ancient cultures and modern indigenous peoples as evidence of alternative ways of understanding reality informed by thinkers such as American Indian writer Jack Forbes theologian and American Indian rights activist Vine Deloria Shaman Martin Prechtel Dakota activist and scholar Waziyatawin and Okanagan Indian writer Jeannette Armstrong He draws on the wisdom of Dr Paul Stamets author of *Mycelium Running How Mushrooms Can Help Save the World* sociologist Stanley Aronowitz who discusses science s lack of accountability to the earth and many more As in his other books Jensen draws heavily from his own life experience living alongside the frogs redwoods snails birds and bears of the upper northwest about which he writes with exquisite tenderness Having taken on the daunting task of understanding one s dreams as a source of knowledge Jensen achieves the near impossible in this

breathhtakingly brave and ambitious new work **Anarcho-primitivism** , Monsters Derrick Jensen, 2017-10-01 Monsters is an illustrated collection of wild weird and whimsical tales with a twist These stories are not about mythical creatures here the creatures speak for themselves There s an orc who hates Tolkien a young demon awash in teenage angst an angel

abandoned by Jesus who finds the Fates Jensen creates a world both delicately dreamlike and all too real where the villain is sometimes the victim and evil is not always what we thought If stories teach us how to be human then the stories in *Monsters* are the ones we need now These are fractured fairy tales for grown ups where the roots of sadism are laid bare and the horrors of human supremacism are firmly faced But as in all of Jensen s work love is both always possible and also a call to action By turns macabre melancholy and magical these stories and their accompanying images will leave you wondering who the real monsters are and how they can be defeated

The Terrorization of Dissent Jason Del Gandio,Anthony J. Nocella II,2014-06-30 In 2006 the Animal Enterprise Terrorism Act AETA was passed with the intention to equip law enforcement agencies with the tools to apprehend prosecute and convict individuals who commit animal enterprise terror But as many have come to realize this act does not concretely define what is meant by that phrase leading to the interpretation that anyone interfering with a company s ability to make a profit from the exploitation of animals can be considered a terrorist In this unprecedented and timely collection some of the most influential voices in the world of law and animal rights examine the legalities of the AETA highlight its repressive nature and the collusion between private interests and political legislation and provide theoretical frameworks for understanding a variety of related issues In a series of interviews the book also gives animal advocates who have been convicted or directly affected by the AETA including members of the AETA 4 and SHAC 7 an opportunity to speak for themselves Ultimately these writers show that the AETA is less about fighting terrorism and more about safeguarding corporate profit and that it should be analyzed and resisted by everyone who believes in a better world Featuring Piers Beirne Sarahjane Blum Heidi Boghosian Walter Bond Joseph Buddenberg Sarat Colling Kimberly E McCoy Jason Del Gandio Scott DeMuth Carol L Glasser Jennifer D Grubbs Josh Harper Stephanie Jenkins Jay Johnson Eric Jonas Michael Loadenthal Dara Lovitz Lillian M McCartin Anthony J Nocella II David Naguib Pellow Will Potter Dylan Powell Ryan Shapiro Wesley Shirley John Sorenson Vasile Stanescu Brad J Thomson and Aaron Zellhoefer

Earth Jurisprudence Peter D. Burdon,2014-09-19 The idea of human

dominion over nature has become entrenched by the dominant rights based interpretation of private property Accordingly nature is not attributed any inherent value and becomes merely the matter of a human property relationship Earth Jurisprudence Private Property and the Environment explores how an alternative conception of property might be instead grounded in the ecocentric concept of an Earth community Recognising that human beings are deeply interconnected with and dependent on nature this concept is proposed as a standard and measure for human law This book argues that the anthropocentric institution of private property needs to be reconceived drawing on international case law indigenous views of property and the land use practices of agrarian communities Peter Burdon considers how private property can be reformulated in a way that fosters duties towards nature Using the theory of earth jurisprudence as a guide he outlines an alternative ecocentric description of private property as a relationship between and among members of the Earth community This book will appeal to those researching in law justice and ecology as well as anyone pursuing an interest more particularly in earth jurisprudence **Orion** ,2008 The Publishers Weekly ,2008 **Voices of Resistance** Derrick Jensen,2018-05-22 Over the last 40 years the world has lost more than fifty percent of its wildlife population The amount of carbon dioxide has exceeded the critical 400 ppm limit and emissions continue to rise The oceans now contain only 10 percent of the original mass of fish Capitalism creates an elite of a few super rich while ever larger masses of people are impoverished We must take the situation seriously unite old movements create new movements and devise new strategies to counter the destruction of our world and rising social inequality with decisive resistance Time is short Environmental and social justice movements must move from the defensive to the offensive if we want to leave our children and grandchildren an earth on which life is still possible
