Threading The Currents A Paddlers Passion For Water:

Threading the Currents Alan S. Kesselheim, 1998 Over the past twenty five years Alan Kesselheim has spent countless hours paddling along the blue veins of the continent He has taken trips ranging from afternoon jaunts to year long journeys from social outings to white knuckle adventures in landscapes stretching from the canyons of the Rio Grande to the shores of Hudson Bay In *Threading the Currents* he explores how his great love of the outdoors and his intense passion for paddling have shaped his life In a lively and engaging style Kesselheim describes the highlights of his paddling trips with friends family and lovers Some like being stranded naked alongside a river are humorous Some like being stalked for more than a mile by a determined bear are frightening Others like his and his wife s surprise conception of their first child during a fourteen month trek through the Canadian Arctic are poignant But all speak to the heart of things to love and friendship birth and death anger and forgiveness to the elemental joys and sorrows of life *The Wilderness Paddler's Handbook* Alan S. Kesselheim, 2012-11-13 *The Wilderness Paddler s Handbook* offers paddlers of any stripe Alan Kesselheim s personal engaging writing and his unsurpassed experience Helpful sidebars interspersed throughout the book provide step by step instructions on all critical technical considerations Everything a new or experienced paddler can expect to encounter is included from trip planning choosing the right gear and packing to camping cooking modifying your boat and dealing with conditions on every kind of water Whether it s how to pick the right partner negotiate a tricky rapid go solo or bring the entire family it s all here in this entertaining inspiring and informative guide Alan Kesselheim has paddled thousands of wilderness miles alone with his wife Marypat and with his young children strapped into the canoe like babies in car seats He s paddled fast moving rivers windswept lakes and quiet ponds One trip took him on a 13 month 2000 mile journey from Grande Cache Alberta to Baker Lake in the Northwest Territories He s also one of North America s preeminent canoeing writers and his hard won opinions are highly respected *On the River With Lewis and Clark* Verne Huser, 2004 On their remarkable journey across the North American continent Meriwether Lewis and William Clark s Corps of Discovery traveled almost ten thousand miles about nine thousand of them on rivers With an expert s eye Verne Huser tells us what it was like to mount and carry out such an expedition 52 photographs 4 line drawings map [Deep Travel](#) David K. Leff, 2009-04 In the hot summer of 2004 David Leff floated away from the routine of daily life just as Henry David Thoreau and his brother had done in their own small boat in 1839 Fortified with Thoreau s observations as revealed in *A Week on the Concord and Merrimack Rivers* Leff brought his own concept of mindful deep travel to these same New England waterways His first person narrative uses his ecological way of looking of going deep rather than far to show that our outward journeys are inseparable from our inward ones How we see depends on where we are in our lives and with whom we travel Leff chose his companions wisely In consecutive journeys his neighbor and friend Alan a veteran city planner his son Josh an energetic eleven year old and his sweetheart Pamela a compassionate professional caregiver added their perspectives to Leff s own

experiences as a government official in natural resources policy Not so much sight seeing as sight seeking together they explored a geography of the imagination as well as the rich natural and human histories of the rivers and their communities The heightened awareness of deep travel demands that we immerse ourselves fully in places and realize that they exist in time as well as space Its mindfulness enriches the experience and makes the voyager worthy of the journey Leff s intriguing contemplative deep travel along these historic rivers presents a methodology for exploration that will enrich any trip
