of the Annunciation however God the Son is not represented It is a question whether in some pictures God the Son is represented or not by the Word which is spread before Mary This may seem a refinement of interpretation but in all probability we shall not outdo the mediaeval artists and theologians in what they thought and tried to represent A noteworthy example of the representation of the Annunciation in enamel is to be found in an exquisite triptych of the Metropolitan Museum New York Here the Book outspread before the kneeling Virgin is all but in the vertical axis of the picture with the Dove and *Visual Representations of the Trinity* John Brainerd MacHarg,1917 *The Cornell Alumni News* ,1919
