Political Marketing in the 2020 U.S. Presidential Election Jamie Gillies, 2021-12-10 This book focuses on the U.S. presidential election spectacle from the primaries through to the November 2020 election and the subsequent events leading up to the inauguration of Joe Biden as the 46th president. A follow up to Political Marketing in the 2016 U.S. Presidential Election it uniquely focuses on the political marketing and branding strategies of presidential candidates with particular attention to how those strategies have changed since the 2016 election. The 2020 election was as much about a continuous strategy of targeting and maintaining voter enthusiasm as it was about swaying undecided voters in the electorate distinguishing it from the horserace and implications of vote targeting in 2016. Donald Trump had a base of support that was unwavering. Likewise Joe Biden and the Democrats counted on the same proportion of the electorate to vote against Trump. The election was also a harbinger of major new branding and marketing strategies including innovative uses of social media and direct appeals to voters. This book presents diverse scholarly perspectives and research with practitioner relevant content on practices and discourses that will advance our current understandings of political marketing theories.

Political Marketing and British Political Parties Jennifer Lees-Marshment, 2001 Demonstrates how British political parties have begun to use comprehensive political marketing in order to gain electoral success.
