, *The She Spot* Lisa Witter, Lisa Chen, 2009-03 The really cool thing about this book is that Lisa and Lisa are showing us a way that we just might be able to save the planet By marshalling the forces of loyalty connectedness empathy and the desire to make our purchase dollars count for something good we just might be able to persuade business to increase investments in cleaning up the m **She Spot** Lisa Witter, Lisa Chen, 2008-06-09 A guide for nonprofits and social change organizations on how to tap the potential of the female market and why it helps The secret to changing the world is hidden in plain sight In fact it's half the population Women vote more volunteer more and give to more charities than men do They control over half of the total wealth in America Corporations have long recognized the growing power of women and have been targeting them for years **The She Spot** is a practical and provocative primer showing how nonprofits and social change organizations can do it too Lisa Witter and Lisa Chen cite eye opening research that reveals some surprising facts women are less likely to trust politicians and politics as usual African American women donate a larger percentage of their income to nonprofits than white women but get asked to give a lot less often and in one poll only seven percent of women identified protecting reproductive choice supposedly the women's issue as a top priority for Congress Building on insights like these they identify and describe four core principles care control connect and cultivate for designing messages that will resonate with women of all ages and backgrounds And using case histories from companies like Home Depot T Mobile and Kellogg's as well as nonprofits like

MoveOn.org, the American Lung Association and the Environmental Defense Fund, they explain precisely how to put these four principles into practice. This book makes the case that simply painting your marketing campaign pink and calling it a day will miss the mark with most women. Witter and Chen show that connecting with women can help you connect with men too, think both and not either/or. You'll raise more money and recruit more supporters for your cause. In the end, those who hit the She Spot claim the power to create a better, brighter world for all of us. Smart, engaging and eminently useful, The She Spot puts its finger on how to score with the key drivers of social change: women. Arianna Huffington. The authors present their material efficiently and engagingly, tackling the motivation, both social and neurological, behind women's contributions and interest and the methods to appeal to them, from news media to online. Bolstered with helpful chapter takeaway lists and concrete examples of companies that have successfully reached the female audience, Witter and Chen have crafted a thoughtful, helpful guide to nonprofit marketers. Publishers Weekly *Real You Incorporated* Kaira Sturdivant

Rouda, 2010-12-30. *Real You Incorporated* empowers women entrepreneurs. The book provides insights for women on how to discover and love their personal brand and how to bring it into the market as a real business, unique and different. In the first section of the book, *Find It Within You*, readers will learn how to express internal personality, passions and essence to define the internal brand. In the second section, *The Competitive Advantage*, readers learn how to extend the internal message into the world to their partners, employees and ultimately their customers. Part branding, the author is a nationally known marketing expert and part business inspiration, *Real You Incorporated* includes case studies of real women entrepreneurs from a variety of industries: manufacturing, retail, restaurants, real estate, publishing and many more. Their stories bring the book to life, adding inspiration and role models. The book also includes a visualization tool in the form of a chart that women entrepreneurs can complete and keep with them to remind them of their *Real You*, no matter what phase their business is in.

Too Busy to Shop Kelley M. Skoloda, 2009-03-05. Research indicates that most women do it at least ten times every five minutes. What is it? Multi-minding, mentally juggling a complex mix of family, career and self-care decisions at any given moment, with little time for commercial messages to seep into the mix. How do marketers reach women who still make 85% of all consumer purchasing decisions? This book, based on research, interviews and Kelley Skoloda's twenty years of leading-edge work in brand marketing with major clients, explains how to connect with multi-minding women, gain their trust and tap into their purchasing power. Multi-minding is a cultural phenomenon that is here to stay. A multi-minding woman, even if she appears to be relaxing in front of a late-night television show, reading a magazine in the pediatrician's office or tackling a complicated analytic study at work, is at the same time thinking about and preparing for the other dimensions of her life. She's weighing the benefits of changing her 401k plan, plotting out her organic vegetable garden, ticking off birthday party logistics and longing for a neck massage. That's why one study shows women feel they are packing 38 hours of activity into a 24-hour period. But studies also show that most women feel marketers are ignoring their needs. That's a big mistake considering

women spend 3.3 trillion annually on consumer products Too Busy to Shop explains what marketers need to know about multi minding a word coined by Skoloda and Ketchum and its implications for companies seeking to speak to women buyers Besides theory and insight readers get how tos and action items designed to ensure women view their brands favorably and hear the marketing message The book also contains insiders views of some of the most successful marketing to women campaigns of recent times In short Too Busy to Shop helps marketers understand multi minding in depth an essential task if they want to reach today s overloaded female consumer
