Cultural Complexes in Europe Jörg Rasche, Thomas Singer, 2025-03-26 What is going on in Europe The actual conflicts between its nations or states can be traced back to old and revived cultural complexes In this book first compiled in 2016 Jungian analysts explore the cultural identities of their European homelands and nations This is a new approach to old questions What makes a people feel at home How do their traditions and narratives form a cultural Self and identity How do they differ from one another Exploring cultural complexes blends knowledge of history economics sociology anthropology geography psychology religious studies literature and poetry But as every complex

is built around an emotional core the study of how cultural complexes live in the psyche is not limited to these disciplines Each author and reader engages in a confrontation with their emotions prejudices and projections The shape that the ideas and feelings of a cultural complex take in the psyche can be inchoate rapidly shifting and yet paradoxically long standing and often quite immune and impermeable to the reason that traditional disciplines of thought would impose on them These cultural complexes do not necessarily provide a coherent or linear sequencing of facts and events because that is not how they actually exist and function in the psyche of individuals and groups At the same time cultural complexes shape what it means to be a citizen of a particular city region or country of Europe This remarkable book is an important read for Jungian analysts and those interested in Europe's historical and cultural development Mosaic Diane Armstrong, 2002-09-14
