A. Henty,2010-08-28 PREFACE My Dear Lads The Great War between the Northern and Southern States of America possesses a peculiar interest for us not only because it was a struggle between two sections of a people akin to us in race and language but because of the heroic courage with which the weaker party with ill fed ill clad ill equipped regiments for four years sustained the contest with an adversary not only possessed of immense numerical superiority but having the command of the sea and being able to draw its arms and munitions of war from all the manufactories of Europe Authorities still differ as to the rights of the case The Confederates firmly believed that the States having voluntarily united retained the right of withdrawing from the Union when they considered it for their advantage to do so The Northerners took the opposite point of view and an appeal to arms became inevitable During the first two years of the war the struggle was conducted without inflicting unnecessary hardship upon the general population But later on the character of the war changed and the Federal armies carried wide spread destruction wherever they marched Upon the other hand the moment the struggle was over the conduct of the conquerors was marked by a clemency and generosity altogether unexampled in history a complete amnesty being granted and none whether soldiers or civilians being made to suffer for their share in the rebellion With Lee In Virginia George Alfred Henty,2018-03-02 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved
