Within Walls Private Life In The German Democratic Republic:

Within Walls Paul Betts, 2012-11-22 A history of private life in the German Democratic Republic showing how the private sphere assumed central importance in the GDR from the very outset and revealing the myriad ways in which privacy was expressed staged and defended by citizens living in a communist society *Private Life and Privacy in Nazi Germany* Elizabeth Harvey, Johannes Hürter, Maiken Umbach, Andreas Wirsching, 2019-07-18 Highlights the surprising ways in which the Nazi regime permitted or even fostered aspirations of privacy **The German Democratic Republic** Ned Richardson-Little, 2025-07-24 The German Democratic Republic has come to stand as a symbol of communist tyranny a source of Cold War nostalgia and socialist kitsch and a failed alternative to the worst excesses of 21st century capitalism In this book Ned Richardson Little delves into the central contradictions of the GDR state This book illustrates the fault lines of GDR society the worldviews and experiences of not only those who ruled the GDR but also those who rebelled against the strictures of state socialism and those in between who sought a normal life under dictatorship The German Democratic Republic is a succinct and comprehensive history of East Germany that traces its story from the country's origins as the Soviet Zone of Occupation after World War II through key events such as the 1953 Uprising the building of the Berlin Wall the Helsinki Accords and the collapse of state socialism in 1989 Some of the themes explored include the memory of Nazism and national identity everyday life under dictatorship including consumerism sexuality and racism the global politics of the GDR the diversity of dissenting voices and the competing visions for East Germany's democratic future *The German Democratic Republic* Peter Grieder, 2012-11-02 A clear concise and thought provoking introduction to the history of East Germany which engages critically with key debates and advances new interpretations of the origins development and demise of the GDR Peter Grieder also offers an original conceptualization of the GDR as a totalitarian welfare state *Outside the "Comfort Zone"* Tatiana Klepikova, Lukas Raabe, 2020-07-06 Traditionally privacy studies have focused on the liberal democratic societies of the global West whereas non democratic contexts have played a marginal role in the discussion of the private and public spheres not in the least because of the political stances of the Cold War era This volume offers explorations of highly diversified performances and discourses of privacy by various actors which were embedded into the culturally economically and politically specific constructions of late socialism in individual states of the Warsaw Pact While the experience of socialism varied across the Bloc there were also some reactions to socialism and some reverse responses of socialist regimes to these reactions that one can trace through all states Contributions to this volume take us across the Eastern Bloc and beyond it from the Soviet Union into late socialist Poland Romania and East and West Germany While looking at specific countries they provide a glimpse into a broader perspective that reaches beyond the borders of individual late socialist states Together these articles document a palette of paradigms of the construction and transformation of the private spheres that overcame the national borders of individual states and left an imprint across the Eastern Bloc thereby

contributing to rethinking Cold War rhetoric in regard to these states

The People's Own Landscape Scott

Moranda, 2014-01-21 East Germany's Socialist Unity Party aimed to placate a public well aware of the higher standards of living enjoyed elsewhere by encouraging them to participate in outdoor activities and take vacations in the countryside Scott Moranda considers East Germany's rural landscapes from the perspective of both technical experts landscape architects biologists and physicians who hoped to dictate how vacationers interacted with nature and the vacationers themselves whose outdoor experience shaped their understanding of environmental change As authorities eliminated traditional tourist and nature conservation organizations dissident conservationists demanded better protection of natural spaces At the same time many East Germans shared their government's expectations for economic development that had real consequences for the land By the 1980s environmentalists saw themselves as outsiders struggling against the state and a public that had embraced mainstream ideas about limitless economic growth and material pleasures

Bowling for Communism Andrew

Demshuk, 2020-10-15 Bowling for Communism illuminates how civic life functioned in Leipzig East Germany's second largest city on the eve of the 1989 revolution by exploring acts of urban ingenuity amid catastrophic urban decay Andrew Demshuk profiles the creative activism of local communist officials who with the help of scores of volunteers constructed a palatial bowling alley without Berlin's knowledge or approval In a city mired in disrepair civic pride overcame resentment against a regime loathed for corruption Stasi spies and the Berlin Wall Reconstructing such episodes through interviews and obscure archival materials Demshuk shows how the public sphere functioned in Leipzig before the fall of communism Hardly detached or inept local officials worked around centralized failings to build a more humane city And hardly disengaged residents turned to black market construction to patch up their surroundings Because such urban ingenuity was premised on weakness in the centralized regime the dystopian cityscape evolved from being merely a quotidian grievance to the backdrop for revolution If by their actions officials were demonstrating that the regime was irrelevant and if in their own experiences locals only attained basic repairs outside official channels why should anyone have mourned the system when it was overthrown

Antifascism After Hitler Catherine Plum, 2015-02-20 Antifascism After Hitler investigates the antifascist stories memory sites and youth reception that were critical to the success of political education in East German schools and extracurricular activities As the German Democratic Republic GDR promoted national identity and socialist consciousness two of the most potent historical narratives to permeate youth education became tales of communist resisters who fought against fascism and the heroic deeds of the Red Army in World War II These stories and iconic images illustrate the message that was presented to school age children and adolescents in stages as they advanced through school and participated in the official communist youth organizations and other activities This text delivers the first comprehensive study of youth antifascism in the GDR extending scholarship beyond the level of the state to consider the everyday contributions of local institutions and youth mentors responsible for conveying stories and commemorative practices to generations born during

WWII and after the defeat of fascism While the government sought to use educators and former resistance fighters as ideological shock troops it could not completely dictate how these stories would be told with memory intermediaries altering at times the narrative and message Using a variety of primary sources including oral history interviews the author also assesses how students viewed antifascism with reactions ranging from strong identification to indifference and dissent Antifascist education and commemoration were never simply state prescribed and were not as participation less as some scholars and contemporary observers claim even as educators fought a losing battle to maintain enthusiasm

German Migrant Historians in North America Karen Hagemann, Konrad H. Jarausch, 2024-11-01 The migration experiences career paths and scholarship of historians born in Germany who started emigrating to North America in the 1950s have had a unique impact on the transatlantic practice of Central European History German Migrant Historians in North America analyzes the experiences of this postwar group of scholars and asks what informed their education and career choices and what motivated them to emigrate to North America The contributors reflect on how these migration experiences informed their own research and teaching and particularly discuss the more general development of the transatlantic exchange between German and American historians in the scholarship on Modern Central European History
