Re-Mapping Archaeology Mark Gillings, Piraye Hacıgüzeller, Gary Lock, 2018-07-27 Maps have always been a fundamental tool in archaeological practice and their prominence and variety have increased along with a growing range of digital technologies used to collect visualise query and analyse spatial data However unlike in other disciplines the development of archaeological cartographical critique has been surprisingly slow a missed opportunity given that archaeology with its vast and multifaceted experience with space and maps can significantly contribute to the field of critical mapping Re mapping Archaeology thinks through cartographic challenges in archaeology and critiques the existing mapping traditions used in the social sciences and humanities especially since the 1990s It provides a unique archaeological perspective on cartographic theory and innovatively pulls together a wide range of mapping practices applicable to archaeology and other disciplines This volume will be suitable for undergraduate and postgraduate students as well as for established researchers in archaeology geography anthropology history landscape studies ethnology and sociology

The Klondike Fever: The Life And Death Of The Last Great Gold Rush Pierre Berton, 2015-11-06 Absolutely first rate The New Yorker This thrilling story is at once first rate history and first rate entertainment Incredible events occurred in North America after a decrepit steamboat docked at Seattle in 1897 containing two tons of pure gold So frenzied was the clash for gold and so scant was information about conditions in the Klondike that the rush for riches became a kind of fabulous madness The entire tale of which Pierre Berton's account is the definitive telling has an epic ring legends were lived and fortunes were won as much because of its splendid folly as because of its color and motion The definitive account of an affair as wildly improbable as any in North American history Saturday Review A lively saga of the great gold rush It is the most complete and most authentic on the subject in English The New York Times Book Review

At the Earth's Core Edgar Rice Burroughs, 2015-11-04 I do not expect you to believe this story. Nor could you wonder had you witnessed a recent experience of mine when in the armor of blissful and stupendous ignorance I gaily narrated the gist of it to a Fellow of the Royal Geological Society on the occasion of my last trip to London. You would surely have thought that I had been detected in no less a heinous crime than the purloining of the Crown Jewels from the Tower or putting poison in the coffee of His Majesty the King. The erudite gentleman in whom I confided congealed before I was half through it is all that saved him from exploding and my dreams of an Honorary Fellowship, gold medals and a niche in the Hall of Fame faded into the thin cold air of his arctic atmosphere. But I believe the story and so would you and so would the learned Fellow of the Royal Geological Society had you and he heard it from the lips of the man who told it to me. Had you seen as I did the fire of truth in those gray eyes had you felt the ring of sincerity in that quiet voice had you realized the pathos of it all you too would believe. You would not have needed the final ocular proof that I had the weird rhamphorhynchus-like creature which he had brought back with him from the inner world. I came upon him quite suddenly and no less unexpectedly upon the rim of the great Sahara Desert. He was standing before a goat-skin tent amidst a clump of date palms within a tiny oasis. Close by was an Arab douar of some eight or ten tents. I had come down from the north to hunt lion. My party consisted of a dozen children of the desert. I was the only white man. As we approached the little clump of verdure I saw the man come from his tent and with hand-shaded eyes peer intently at us. At sight of me he advanced rapidly to meet us.

The Deer Family THEODORE ROOSEVELT, 2015-07-24 The 1902 Classic This is a thoroughly enjoyable anthology on deer and hunting by numerous famous outdoor authors of the time including then Vice President Theodore Roosevelt. Unlike many vintage books on hunting you'll find the tone and readability to be excellent as well as being still very topical to hunters of the twenty-first century. Roosevelt is in true form as he discusses Mule deer, Whitetail, Pronghorn, Antelope and Wapiti Elk in detail and adds personal stories of his own experiences in the field. Hunting adventures of his youth and specific methods as they relate to each species are discussed at length. Next is Van Dyke's *Deer and Elk of the Pacific Coast* as fascinating and colorful treatise of hunting in California, Oregon and British Columbia around the turn of the century. The vivid descriptions of the area environs and prey are especially well written. In this addition *The Caribou and The Moose* round out this excellent collection on the Deer family with more information on each variety and species as it relates to hunting and sport. Both add interesting insights and anecdotes that will interest the sportsman. This must-have anthology includes all of the following titles: *The Deer and Antelope of North America* Theodore Roosevelt, *The Deer and Elk of the Pacific Coast* T. S. Van Dyke, *The Caribou* D. G. Elliot, *The Moose Where it Lives and How it Lives* A. J. Stone. Keywords: hunt, hunting, whitetail, caribou, moose.
