“Same Is Better” Cari Myers, 2022-10-31 As younger generations drift away from evangelical churches the number of religiously unaffiliated young adults grows Is the drift because of politics personal morality rebelliousness culture wars or something else In this project 16 young adults from the Churches of Christ participate in qualitative interviews over a five year span They describe messages they learned about success and survival

from their faith communities as children and how they have embraced and reinterpreted those messages into helpful life principles as adults The resulting study explores issues of ethnicity in evangelical borderland communities and contrasts Latinx narratives with white narratives in religious and educative contexts Findings also revealed gendered narratives class based narratives and the glaring absence of helpful narratives around sexuality filtered through the lenses of religion and education The central finding of the interviews is this participants experienced the Church of Christ as rewarding conformity with community a strategy when it works which secures the future of the denomination and cements a conservative doctrine in the next generation of leadership However the study concludes that true survival narratives were the narratives participants constructed in response to the narratives provided by Churches of Christ

Dixon, 2014-06-01 In traditional educational research race is treated as merely a variable In 1995 Gloria Ladson Billings and William F Tate IV argued that race is under theorized in education and called for educational researchers to pay closer attention to the relationship between race and educational inequity Ladson Billings and Tate 1995 In particular they argued drawing on legal scholar Derrick Bell s notion of Racial Realism Bell 1995 that racialized inequities are not accidental or aberrant rather racialized educational inequities are the result of particular and specific policies and practices that are designed to maintain particular forms of dominance and marginalization More specifically Bell and later Ladson Billings and Tate argue that racial inequity persists despite liberal policies and legislation that were ostensibly designed to eradicate it The Racial Realist perspective takes into the consideration the longevity and history of racism racial inequity and White supremacy in the U S and serves as a mirror to reflect back the limitations of proposed policies and legislation that fail to address those issues In this way Critical Race Theory and the scholars who draw on CRT view our work as an important check and balance in the effort toward racial equality *Identity Safe Classrooms, Grades 6-12* Becki Cohn-Vargas, Alexandra Creer Kahn, Amy Epstein, 2020-07-17 Welcome to Identity Safe Classrooms In identity safe classrooms students facing negative stereotypes or viewed as different are seen accepted and valued for who and what they are Their identity is embraced as an asset not a barrier for school success Identity safety is a research based set of practices that counter the harmful effects of stereotype threat and allow our students to reach their full capacity for learning foster positive relationships and better appreciate the full spectrum of human differences The second of a two volume set Identity Safe Classrooms Grades 6 12 is a call for educators to come together and realize a vision of schools as transformative places of opportunity and equity for all students Inside you ll find Design principles for promoting belonging and a welcoming classroom environment Compelling evidence from identity safety research on ways to mitigate stereotype threat along with counter narratives that challenge societal biases about gender race and other differences Pragmatic strategies for student centered teaching including trauma informed practices that hold high expectations and validate each student s background as a resource for learning Vignettes with concrete examples and try it out activities and prompts for self reflection Devour Identity Safe Classrooms adopt its practices and soon enough you ll inspire in all of your students a greater sense of empathy and agency in their educational experiences Dr Becki Cohn Vargas along with Alexandra Creer Kahn and Amy Epstein show us the intersections between adolescent identity development racial identity development and social emotional development so we know how to use the diversity in classrooms as our strength Zaretta Hammond Author of Culturally Responsive Teaching and the Brain Identity Safe Classrooms should be in

the hands of every educator who walks into a school. It's clear and accessible, grounded in research, thought provoking and engaging and actionable and fills a crucial gap in our resources for creating just and liberated schools. Elena Aguilar, Author of *The Art of Coaching*. The authors have done an excellent job showing how an identity safe classroom integrates the growth mindset in a secondary school. Building Healthy Communities for Positive Youth Development Michael J. Nakkula, Karen C. Foster, Marc Mannes, Shenita Bolstrom, 2010-07-23. It is a great pleasure to offer this volume from Michael J. Nakkula, Karen C. Foster, Marc Mannes and Shenita Bolstrom as the latest in the Search Institute Series on Developmentally Attentive Community and Society. Its importance to the series and this field of inquiry and practice is readily evident in its title, *Building Healthy Communities for Positive Youth Development*. Since the early 1990s, Search Institute has invited and encouraged communities of all shapes and sizes to use its framework of Developmental Assets and principles of asset building to create strong, vibrant and welcoming communities for children and youth. We have operated largely at the grassroots level, encouraging innovation and adaptation around a shared vision rather than proposing a program or model for replication. We seek to learn as much from the communities as they learn from us. This book offers in-depth case studies of what happened in eight diverse communities that took up our invitation. In them, we see a wide array of strategies and

approaches that on the surface seem to have little coherence But as Nakkula and colleagues found underlying each of these distinct efforts was a deep commitment to transforming the social norms of community life to more effectively attend to young people s healthy development throughout the rst two decades of life There have been many ambitious efforts aimed at comprehensive community change on behalf of young people
