Unholy Trinity Richard Peet, 2003-08 Our lives are all affected by three hugely powerful and well financed but undemocratic organizations the International Monetary Fund the World Bank and the World Trade Organization These institutions share a common ideology They aggressively promote corporate capitalism neoliberalism giving free rein to the interests of a small number of transnational corporations This book presents the history and fundamental ideas of this economic ideology Describing each member of the unholy trinity it shows how neoliberalism hijacked the IMF World Bank and WTO in relation to their global financial development and trade management roles **A Game As Old As Empire** ,

Oxford Handbook of the International Monetary Fund , 2024-10-07 The International Monetary Fund IMF is a pivotal institution in global economic governance tasked with ensuring monetary stability and preventing financial crises through promoting balanced trade economic growth and poverty reduction It also plays a powerful normative role by shaping economic policies worldwide through its research and expertise The IMF played a crucial role in managing crises like the 2008 financial crisis and the COVID 19 pandemic providing significant financial aid and advocating for stimulus measures However the IMF faces both internal and external challenges from reforming its governance structure to better represent emerging economies to finding its place in a world increasingly defying liberal internationalism and multilateralism Despite reforms power remains concentrated among advanced economies hindering inclusivity and trust particularly in regions like sub Saharan Africa Geopolitical tensions populist nationalism and economic imbalances further strain the IMF s effectiveness This handbook aims to uncover these challenges by providing diverse perspectives and proposing policy recommendations that the Fund could undertake to better navigate the complex landscape of 21st century global governance Part I delves into its historical origins and key debates of the IMF Part II focuses on formal operations such as lending surveillance and capacity development Part III explores the involvement of different actors including states markets and civil society Part IV discusses partnerships with other international organizations and collaboration in financial regulation Part V analyzes shifts in policy instruments and ideological frameworks Part VI broadens concerns to include gender mainstreaming labor markets climate policy and inclusive growth Part VII addresses internal challenges including cultural diversity concerns and uniformity of treatment Part VIII evaluates external challenges such as populist movements China s influence global inequality and unresolved issues in Europe Part IX explores how the IMF can meet the multiple challenges identified in this volume and positively impact 21st century global governance Global Political Economy Theodore H.
