Sasso, Joseph L. DeVitis, 2014 Today's College Students A Reader looks at a wide variety of student groups and identities which sets it apart from other texts on contemporary college students that do not cover such a broad spectrum *Digital Technology and the Contemporary University* Neil Selwyn, 2014-05-23 Digital Technology and the Contemporary University examines the often messy realities of higher education in the digital age Drawing on a variety of theoretical and empirical perspectives the book explores the intimate links between digital technology and wider shifts within contemporary higher education not least the continued rise of the managerialist bureaucratic university It highlights the ways that these new trends can be challenged and possibly changed altogether Addressing a persistent gap in higher education and educational technology research where digital technology is rarely subject to an appropriately critical approach Degrees of Digitization offers an alternative reading of the social political economic and cultural issues surrounding universities and technology The book highlights emerging themes that are beginning to be recognised and discussed in academia but as yet have not been explored thoroughly Over the course of eight wide ranging chapters the book addresses issues such as The role of digital technology in university reform Digital technologies and the organisation of universities Digital technology and the working lives of university staff Digital
