Understanding Islam A Guide For The Judaeo Christian Reader:

Understanding Islam Jerald Dirks, 2003 In *Understanding Islam* Dr Dirks offers a timely and factually correct alternative to understanding Islam. It is written for the Western and primarily Christian reader. The primary focus of the Book is on what is termed Sunni Islam, i.e. the Islam practiced by approximately 85-90% of the self-professed Muslims in the world. The Book is unique in several respects. It treats Islam from its own point of view. It is written by a natural born American for the Western reader and thus may avoid some of the cultural overlay that accompanies some books on Islam written by other Muslim authors. The author is an American who has practiced Islam both while living in America and in the Middle East, thus offering a broader perspective than would have otherwise been possible. As a convert from Christianity to Islam and as a former ordained minister within Christianity, the author does a very good job of expounding the commonalities and contrasts of Islam with Judaism and Christianity while still avoiding the temptation to distort Islam by interpreting it from within a Judaeo-Christian perspective. The reader is introduced to Islam almost exclusively through the two primary sources of Islam, i.e. the Qur'an and the Sunnah, which are the only completely authoritative sources on Islam. **American Journal of Islamic Social Sciences 22:4** Johannes Grundmann, Md. Mahmudul Hasan, 2005-10-10 The American Journal of Islamic Social Sciences (AJISS) is an interdisciplinary journal that publishes a wide variety of scholarly research on all facets of Islam and the Muslim world: anthropology, economics, history, philosophy, and metaphysics, politics, psychology, religious law, and traditional Islam. Submissions are subject to a blind peer review process. *The Bible and the Qur'an at the Edge of Renaissance* Linda Ilham Barto, 2009 Appreciative exploration of the Jewish Bible, the New Testament, and the Qur'an and how their consonant attributes can be utilized for a global renaissance of peace and prosperity. **Knights of the Cross** Jeffrey Strickland, 2014-07-25 The story of the Templars is one of the most desolate and obscure in the history of the medieval West. Created as a military religious order to defend the Holy Land, after becoming one of the most powerful and influential institutions of all Christianity, the Temple was put under procedure at the beginning of the 14th Century and then suspended in 1312 because of the serious charges weighed against its members. The last Grand Master, Jacques de Molay, chose to die as a testimony of his innocence, contrasting the guilt of brothers who had been imputed to them: heresy, adherence to anti-Christian beliefs, corruption of morals, and idolatry. The Templars have been linked with the shroud of Turin, the Holy Grail, and the Ark of the Covenant. None of these can be substantiated. What can be substantiated is that though arrested, tortured, and burned at the stake, Pope Clement V absolved them from heresy in 1308, as discovered in a secret Vatican parchment in 2001 and released to the public in 2007. *The Soul of Addiction* Ibraheem Raheem, 2012-03-12 This book is a cutting edge resource for clergy working in clinical settings, helping people deal with substance abuse and other behavior health challenges. It takes a critical look at the role spirituality plays in recovery from addictions, a rising epidemic in our society. It also provides a methodical approach to providing spiritual care in non-traditional settings when helping this target audience.

The book is a must have resource for modern ministry encounters **The American Journal of Islamic Social Sciences**,2005 **Muslims in America** Mbaye Lo,2004 *L'islam et l'orientalisme* Kamel Chekkat,2025-03-16 Si l on d signe par orientalisme un courant intellectuel litt raire et artistique qui a commenc se r pandre au 19e si cle et qui s int resse l Orient ses civilisations ses religions ses cultures et ses langues force est d admettre qu il est vite devenu un outil dont se sont servi les grandes puissances coloniales pour asseoir leur domination sur un Orient en proie de nombreuses crises la fois outil de propagande et de d nigration syst matique de la civilisation islamique l orientalisme a plus particuli rement cibl la personne du Proph te Muhammad paix et salut sur lui en tant que h raut du message divin l islam en tant que religion monoth iste pure affubl de tous les d fauts possibles et imaginables et enfin l islam en tant que civilisation qui n aurait dans les faits pas apport grand chose l humanit Deux petits ouvrages ont ici t r unis Th se et antith se se propose de reprendre les grandes th ses orientalistes qui n ont eu de cesse de d nigrer l islam tout en s affairant mettre en relief les arguments solides et incontestables qui viennent les contredire T moignages impartiaux se propose lui de faire montre de largesse d esprit et de relever que parmi celles et ceux qui ont tudi l islam nombreux sont les t moignages de sympathie et de v rit qui conf rent l islam la place qui est la sienne c est dire celle d une religion qui a embrass tous les pans de l existence de l homme tant sur le plan spirituel que sur le plan mat riel et qui apport l humanit dans toutes ses dimensions une contribution inestimable dont nous continuons aujourd hui encore de tirer profit American Book Publishing Record ,2004 The Islamic World Andrew Rippin,2013-10-23 The Islamic World is an outstanding guide to Islamic faith and culture in all its geographical and historical diversity Written by a distinguished international team of scholars it elucidates the history philosophy and practice of one of the world s great religious traditions Its grounding in contemporary scholarship makes it an ideal reference source for students and scholars alike Edited by Andrew Rippin a leading scholar of Islam the volume covers the political geographical religious intellectual cultural and social worlds of Islam and offers insight into all aspects of Muslim life including the Qur an and law philosophy science and technology art literature and film and much else It explores the concept of an Islamic world what makes it distinctive and how uniform is that distinctiveness across Muslim geographical regions and through history
