Undutiful Daughters New Directions In Feminist Thought And Practice Breaking Feminist Waves:

Undutiful Daughters H. Gunkel, C. Nigianni, F. Soderback, Fanny Söderbäck, 2012-08-16 This exciting collection offers a range of perspectives from some of the most prominent feminist voices of our time including Rosi Braidotti Judith Butler Claire Colebrook Elizabeth Grosz and Jack Halberstam Employing experimental modes of thinking and writing the contributors remain faithful to the feminist tradition of subversion and resistance while refusing to submit to its political tradition of a loving sisterhood or dutiful daughterhood Through productive disagreement and cognitive dissonance the essays presented here reflect the specific circumstances of our present and attempt to dream and envision possible alternatives for the future The volume thus invites us to think of the becoming of feminism itself and the possibilities of future feminisms to come

Generational Feminism Iris van der Tuin, 2014-11-12 Iris van der Tuin redirects the notion of generational logic in feminism away from its simplistic conception as conflict Generational logic is said to problematize feminist theory and gender research as it follows a logic of divide and conquer between the old and the young and participates in patriarchal structures and phallogocentrism Examining the continental philosophies of Bergson and Deleuze and French feminisms of sexual difference van der Tuin paves the way for a more complex notion of generationality This new conception of the term views generational cohorts as static measurements that happen in the flow of being Prioritizing this generative flow gives what is measured its proper place as an effect

Generational Feminism New Materialist Introduction to a Generative Approach experiments with a previously disregarded methodology's implications as an impetus for a new materialism and advances feminist politics for the twenty first century

Gender Commodity Robin Truth Goodman, 2022-02-10 Gender has become a commodity Today's economy trades in symbols and narratives as much as in objects As such gender can be bought and sold produced as an object and demands constant work What makes the commodity object seem alien mysterious and even threatening Marx tells us is that the worker's social relations his subjectivity are taken away from him and stamped into the object which then appears to have a life of its own disassociated and threatening Gender Commodity argues that gender is a social relation made into such an alienated object In today's situation of radical insecurity people are reaching out and identifying with objects including symbolic ones that promise quite falsely that they grant stability duration and fulfillment and gender has been made into one

of those Gender Commodity is an interdisciplinary study that brings literary studies into dialogue with the surrounding mediascape around issues of gender culture and economy It also asks how the symbolic production of gender commodity at home informs an imagination of gender policy as it reaches out globally As it criticizes gender affirmative feminism for participating in the culture of the commodity Gender Commodity also looks to feminism to imagine gender otherwise
