Union With Christ The New Finnish Interpretation Of Luther:

Union with Christ Carl E. Braaten, Robert W. Jenson, 1998 This book introduces the English speaking world to the new Finnish interpretation of the theology of Martin Luther initiated by the writings of Tuomo Mannermaa of Helsinki University At the heart of the Finnish breakthrough in Luther research lies the theme of salvation Luther found his answer to the mystery of salvation in the justifying work of Christ received through faith alone But Protestant theology has never enjoyed a consensus on how to interpret the Reformation doctrine of justification by faith In opposition to the traditional forensic understanding of justification Mannermaa argues that for Luther Christ is really present in faith itself Mannermaa's interpretation of Luther's view of justification is thus more ontological and mystical than ethical and juridical As such his work challenges a century of scholarly opinion concerning a foundational doctrine of Protestant theology *Martin Luther's Understanding of Faith and Reality (1513-1521)* Ilmari Karimies, 2022-08-03 Ilmari Karimies investigates Martin Luther's understanding of reality and faith He examines Luther's understanding of reality from three perspectives firstly God as the self giving highest good uniting opposites and hiding beneath them secondly the visible and invisible world and thirdly human beings as tripartite body soul spirit and bipartite flesh spirit The author explores the cognitive conflict between these in relation to spirit's grasping of God and the invisible world with reference to Augustinian Platonism He analyses aspects of faith from the perspective of the theory of divine illumination and shows that Luther represents a realistic Augustinian view Faith functions as the theological intellect grasping the invisible world and showing human beings the future good in a manner similar to the medieval notion of ecstatic knowledge It differs from vision in glory because of sin as mixed with humanity and as partial knowledge Transformed into the Same Image Paul Copan, Michael M. C. Reardon, 2024-10-15 Though the doctrine of theosis has been gaining interest among scholars for some time most have focused on Roman Catholic or Orthodox traditions In this constructive account of deification biblical scholars and theologians focus on the work of major Protestant thinkers and Protestant expressions of the doctrine **Toward a Priestly Christology** Adriani Milli Rodrigues, 2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ's priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the

internal logic of Christ's priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood especially regarding the relationship between the ascended Christ and our Christian life **Theology as Freedom** Andrea Vestrucci,2019-05-03 Back cover Andrea Vestrucci presents a pioneering analysis of Martin Luther's De servo arbitrio one of the most challenging works of Christian theology From the hidden God to predestination from justification to ontology from logic to aesthetics the author explores a paradigm shifting perspective on theological language Encyclopedia of Martin Luther and the Reformation Mark A. Lamport,2017-08-31 The Encyclopedia of Martin Luther and the Reformation is a comprehensive global study of the life and work of Martin Luther and the movements that followed him in history and through today Organized by a stellar advisory board of Luther and Reformation scholars the encyclopedia features nearly five hundred entries that examine Luther's life and impact worldwide The two volume set provides overviews of basics such as the 95 Theses as well as more complex topics such as reformational distinctions Entries explore Luther's contributions to theology sacraments his influence on the church and contemporaries his character and more The work also discusses Luther's controversies and topics such as gender sexuality and race Publishing at the five hundredth anniversary of the Reformation this is an essential reference work for understanding the Reformation and its legacy today **The Work of Faith** Justin Nickel,2020-08-31 Many scholars assume that Luther advocates for a Christian life in which human beings are always passive recipients of God's grace as it is delivered in preaching and mere instruments through which God works to serve their neighbors The Work of Faith Divine Grace and Human Agency in Martin Luther's Preaching offers a different reading of Luther's views on human agency by drawing on a fresh source Luther's preaching Using Luther's sermons in the Church Postil as a primary source Justin Nickel argues that Martin Luther preached as though Christians have real if secondary agency in the lives they lead before God and neighbor As a result Nickel presents a Luther substantively concerned with how Christians lead their lives Pro Ecclesia Vol 20-N1 Pro Ecclesia,2011-02-16 Pro Ecclesia is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology **Luther in English** Michael S. Whiting,2010-06-01 Recent studies have increasingly downplayed and in a few cases even wholly denied the influence of Martin Luther's theology of Law and Gospel on early English evangelicals such as William Tyndale The impact of a late medieval Augustinian renaissance Erasmian Humanism the Reformed tradition and Lollardy have all but eclipsed the more central role once attributed to Luther Whiting reexamines these claims with a thorough reevaluation of Luther's theology of Law and Gospel in its historical context spanning twenty five years something entirely lacking in all previous studies Based on extensive research in the primary sources with acute attention to the larger historical narrative and in dialogue with secondary scholarship Whiting argues that scholars have often oversimplified Luther's theology of Law and Gospel and have thus wrongly diminished his very significant even principal influence upon first generation evangelicals William Tyndale John Frith and Robert Barnes during the English
