Writing On Ice The Ethnographic Notebooks Of Vilhjalmur Stefansson:

Writing on Ice Vilhjalmur Stefansson, 2001 Between 1906 and 1918 anthropologist and explorer Vilhjalmur Stefansson went on three long expeditions to the Alaskan and Canadian Arctic He wrote voluminously about his travels and observations as did others Stefansson's fame was partly fueled by a series of controversies involving envious competitors in the race for public recognition While many anthropological works refer to his writings and he continues to be cited in ethnographic and historical works on indigenous peoples of the North American Arctic particularly the Inuit his successes in exploration the discovery and mapping of some of the last remaining land on earth have overshadowed his anthropological work *Writing on Ice* utilizes his extensive fieldwork diaries now in Dartmouth's Special Collections and contemporary photographs and sketches some never before published to bring to life the anthropology of the Arctic explorer Gisli Palsson situates the diaries in the context of that era's anthropological practice early 20th century expeditionary power relations and the North American community surrounding Stefansson He also examines the tension between the rhetoric of ethnography and exploration the notion of the friendly Arctic and the reality of fieldwork and exploration partly with reference to Stefansson's silence about his Inuit family

[Early Ethnography in the American Arctic](#) Kirsten Hastrup, 2023-10-19 This book offers a portrait of early ethnographic work in the American Arctic with a focus on understanding the mutual constitution of the Inuit and their early ethnographers It draws mainly on a rich repository of written testimonies from the early twentieth century the great ethnographic period when new scholarly interest in the region took off Supplementing the movements and observations of whalers traders and missionaries the early chroniclers offered new knowledge of Inuit life Although their descriptions of the Inuit bear the marks of their time the texts have left a deep mark on later developments and contributed to a long lasting view of human life in the Arctic The chapters show the infiltration of lives and landscapes of thoughts and materials of Inuit and ethnographers The book will be relevant to anthropologists as well as historians geographers and others with an interest in the Arctic region and Indigenous studies
