considering the material affordances of videogames and the practical realities of working in game development processes Structured into three parts Theory considers the craft of both games and writing from a theoretical perspective covering vocabulary for both game and story practices Case Studies uses three case studies to explore the theory explored in Part 1 The Practical Workbook offers a series of provocations tools and exercises that give the reader the means to refine and develop their writing not just for now but as a part of a life long practice Writing for Games Theory and Practice is an approachable and entry level text for anyone interested in the craft of writing for videogames Hannah Nicklin is an award winning narrative and game designer writer and academic who has been practising for nearly 15 years She works hard to create playful experiences that see people and make people feel seen and also argues for making games a more radical space through mentoring advocacy and redefining process Trained as a playwright Nicklin moved into interactive practices early on in her career and is now the CEO and studio lead at Danish indie studio Die Gute Fabrik which most recently launched Mutazione in 2019 *Catalogue* Bernard Quaritch (Firm),1903 Athenaeum and Literary Chronicle ,1895 **Theatre Magazine** ,1901
