Writing And Difference:

Writing and Difference Jacques Derrida, 1978 First published in 1967 *Writing and Difference* a collection of Jacques Derrida's essays written between 1959 and 1966 has become a landmark of contemporary French thought In it we find Derrida at work on his systematic deconstruction of Western metaphysics The book's first half which includes the celebrated essay on Descartes and Foucault shows the development of Derrida's method of deconstruction In these essays Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought one of his main targets being the way in which structuralism unwittingly repeats metaphysical concepts in its use of linguistic models The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language finally showing metaphysics to be constituted by this exclusion These essays on Artaud Freud Bataille Hegel and Lévi Strauss have served as introductions to Derrida's notions of writing and difference the untranslatable formulation of a nonmetaphysical concept that does not exclude writing for almost a generation of students of literature philosophy and psychoanalysis *Writing and Difference* reveals the unacknowledged program that makes thought itself possible In analyzing the contradictions inherent in this program Derrida goes on to develop new ways of thinking reading and writing new ways based on the most complete and rigorous understanding of the old ways Scholars and students from all disciplines will find *Writing and Difference* an excellent introduction to perhaps the most challenging of contemporary French thinkers challenging because Derrida questions thought as we know it

Writing and Difference Alan Bass, 1975 *Writing and Difference* Jacques Derrida, 2001 In the 1960s a radical concept emerged from the great French thinker Jacques Derrida He called the new process deconstruction Rewriting the ways in which we use language and literature deconstruction affected every form of intellectual thought from literary criticism to popular culture It also criticized the entire tradition of Western philosophy from Plato to Bataille The academic community was rocked on a scale hitherto unknown with *Writing and Difference* attracting both accolades and derision Whatever the response deconstruction is here to stay Read the book that changed the way
