Sustainable Agriculture I Marlon Henkel, 2015-02-22 21st Century Homestead Sustainable Agriculture I contains the first part of everything you need to stay up to date on sustainable agriculture

Baptized with the Soil Kevin M. Lowe, 2016 In the early twentieth century many Americans were troubled by the way agriculture was becoming increasingly industrial and corporate Mainline Protestant churches and cooperative organizations began to come together to promote agrarianism the belief that the health of the nation depended on small rural communities and family farms In Baptized with the Soil Kevin M Lowe offers for the first time a comprehensive history of the Protestant commitment to rural America Christian agrarians believed that farming was the most moral way of life and a means for people to serve God by taking care of the earth that God created When the Great Depression hit Christian agrarians worked harder to keep small farmers on the land They formed alliances with state universities cooperative extension services and each other's denominations They experimented with ways of revitalizing rural church life including new worship services like Rural Life Sunday and new strategies for raising financial support like the Lord's Acre Because they believed that the earth was holy Christian agrarians also became leaders in promoting soil conservation Decades before the environmental movement they inspired an ethic of environmental stewardship in their congregations They may not have been able to prevent the spread of industrial agribusiness but their ideas have helped define significant and long lasting currents in American culture

Agrotopias Abby L. Goode, 2022-08-24 In this book Abby L Goode reveals the foundations of American environmentalism and the enduring partnership between racism eugenics and agrarian ideals in the United States Throughout the nineteenth century writers as diverse as Martin Delany Charlotte Perkins Gilman and Walt Whitman worried about unsustainable conditions such as population growth and plantation slavery In response they imagined agrotopias sustainable societies unaffected by the nation's agricultural and population crises elsewhere Though seemingly progressive these agrotopian visions depicted selective breeding and racial improvement as the path to environmental stability In this fascinating study Goode uncovers an early sustainability rhetoric interested in shaping just as much as sustaining the American population Showing how ideas about race and reproduction were central to early sustainability thinking Goode unearths an alternative environmental archive that ranges from gothic novels to Black nationalist manifestos from Waco Texas to the West Indies from city tenements to White House kitchen gardens Exposing the eugenic foundations of some of our most well regarded environmental traditions this book compels us to reexamine the benevolence of American environmental thought

Essential Writings Gilbert Keith Chesterton, 2003 G

K Chesterton 1874 1936 was one of the great Catholic writers of the twentieth century He brought a distinctive Catholic perspective to scores of books and articles even to the genre of detective novels in the famous Father Brown mysteries As this collection shows Chesterton s writing contains a spiritual dimension In his ability to combine matters of great seriousness with great humor the contours of his distinctive and paradoxical spirituality emerge **Historical Writing on the Peoples of Asia: Historians of South East Asia, edited by D.
