DeMello, 2021-04-13 Human animal studies is an interdisciplinary field that explores the spaces that animals occupy in human social and cultural worlds It examines the interactions humans and animals have with each other and the ways animal lives intersect with human societies Since existing social orders rely on the exploitation of animals to serve human needs the questions posed by human animal studies touch upon a wide range of fundamental issues *Animals and Society* provides a broad overview of this rapidly growing field Margo DeMello offers students and scholars a holistic and comprehensive picture of the state of inquiry into the relationships that exist between humans and other animals She considers interactions between animals and humans in social organizations such as the family the legal system and political and religious institutions A major focus is the social construction of animals in world cultures and the way in which these social meanings are used to reinforce and perpetuate hierarchical human relationships such as racism sexism and class privilege The book

The Global Pigeon Colin Jerolmack, 2013-03-20 The pigeon is the quintessential city bird Domesticated thousands of years ago as a messenger and a source of food its presence on our sidewalks is so common that people consider the bird a nuisance if they notice it at all Yet pigeons are also kept for pleasure sport and profit by people all over the world from the pigeon wars waged by breeding enthusiasts in the skies over Brooklyn to the Million Dollar Pigeon Race held every year in South Africa Drawing on more than three years of fieldwork across three continents Colin Jerolmack traces our complex and often contradictory relationship with these versatile animals in public spaces such as Venice's Piazza San Marco and London's Trafalgar Square and in working class and immigrant communities of pigeon breeders in New York and Berlin By exploring what he calls the social experience of animals Jerolmack shows how our interactions with pigeons offer surprising insights into city life community culture and politics Theoretically understated and accessible to interested readers of all stripes *The Global Pigeon* is one of the best and most original ethnographies to be published in decades

Animals in Person John Knight, 2020-08-29 Our relationship with animals is complex and contradictory we hunt kill and eat them yet we also love respect and protect them This ambivalent relationship is further complicated by the fact that we attribute human emotions and intelligence to animals We even go as far as likening them to children and treating them as family members Drawing on a diverse range of case studies *Animals in Person* attempts to unravel our close and fascinating link with the animal kingdom This book highlights the theme of cross species intimacy in contexts such as livestock care pet keeping and the use of animals in tourism The studies draw on data from different parts of the world including New Guinea Nepal India Japan Greece Britain The Netherlands and Australia *Animals in Person* documents the existence of relations between humans and animals that in many respects recall relations among humans themselves

Face to Face with Animals Peter Atterton, Tamra Wright, 2019-04-16 This is the first volume of primary and secondary source material dedicated solely to the animal question in Levinas Drawing on previously unpublished material including the recent discovery and digitization of the original French recording of an interview with Levinas that took place in 1986 it seeks to give fresh impetus to the debate surrounding the moral status of animals in Levinas's work The book offers ten essays by leading scholars along with a general introduction that places Levinas's philosophy in the context of the growing field of animal ethics The aim of the volume is to encourage dialogue on how we can extend Levinas's ethics beyond its traditional human confines and to spur further research on the opportunities and challenges it raises

Dog Susan McHugh, 2004-08-04 Dogs are perhaps our most popular pets and certainly one of the best loved of all animals They are not only humanity's best friend they are also its oldest burial sites dating back 12 000 years indicate that dogs moved alongside prehistoric peoples before during and after both species settled the world The story of the canine has been fundamentally entwined with that of humanity since the earliest times and this ancient and fascinating story is told in Susan McHugh's *Dog* This book unravels the debate about whether dogs are descended from wolves and moves on to deal with canines in mythology religion and health dog cults in ancient and medieval civilizations as disparate as Alaska Greece Peru and Persia and traces correspondences between the histories of dogs in the Far East Europe Africa and the Americas *Dog* also examines the relatively recent phenomenon of dog breeding and the invention of species as well as the canine's role in science fact and fiction from Laika the first astronaut and Pavlov's famous conditioned dogs through to science fiction novels and cult films such as *A Boy and his Dog* Susan McHugh shows how dogs today contribute to human lives in a huge number of ways not only as pets and guide dogs but also as sources of food in Asia entertainment workers and scientific and religious objects *Dog* reveals how we have shaped these animals over the millennia and in turn how dogs have shaped us

Feline Cultures Éric Baratay, 2024-07-01 Using testimonies written between the middle of the eighteenth century and the beginning of the twenty first nourished by ethology and the human and social sciences *Feline Cultures* extends the unique track of animal studies that Éric Baratay pursues from book to book As with his *Animal Biographies Toward a History of Individuals* Baratay breaks the model of human exceptionalism to create innovative accounts of these animals lives in a way that challenges the reader's thinking about animals Baratay is not interested in seeing how humans think about or treat these animals Instead he chooses to observe the animal's perspective to document how individual cats have carried out their lives He writes from the point of view of these animals to understand what they felt and experienced and how they reacted Whether they be street cats farm cats pet cats companion cats or catdogs cats show a great plasticity of behavior This book establishes that cats have their own cultures and adaptations and therefore their own history Through tight portraits the dynamic construction of what we can call cultures is revealed Here we are far from the eternal portrait of the cat independent unpredictable and mysterious that has become commonplace For each of the domestic cats whose existence can

be reconstructed from his sources Baratay pays attention to their perceptions of the world their sensations and their emotions their sensitivity and character their bodily expressiveness and their interactions with the environment other animals and humans Ethology becomes under the alert pen of ric Baratay an ethnology *The Cambridge Handbook of Sociology: Volume 2* Kathleen Odell Korgen,2017-08-11 Whether a student an instructor a researcher or just someone interested in understanding the roots of sociology and our social world The Cambridge Handbook of Sociology Volume 2 is for you This second volume of the Handbook covers specialties within sociology and interdisciplinary studies that relate to sociology It includes perspectives on race class feminist theories special topics e g the sociology of nonhuman animals quality of life social indicators research the sociology of risk the sociology of disaster the sociology of mental health sociobiology the sociology of science and technology the sociology of violence environmental justice and the sociology of food the sociology of the self the sociology of the life course culture and behavior sociology s impact on society and related fields e g criminology criminal justice studies social work social psychology sociology of translation and translation studies and women and gender studies Each essay includes a discussion of how the respective subfield contributes to the overall discipline and to society Written by some of the most respected scholars teachers and public sociologists in the world the essays are highly readable and authoritative
