Understanding The Quran A Contemporary Approach:

Understanding the Qur'ān Muṣṭafá Maḥmūd, 2004

Contemporary Approaches to the Qur'an and its

Interpretation in Iran Ali Akbar, Abdullah Saeed, 2019-10-24 This book sets out how contemporary Iranian scholars have approached the Qur'an during recent decades. It particularly aims to explore the contributions of scholars that have emerged in the post 1979 revolution era outlining their primary interpretive methods and foundational theories regarding the reading of the Qur'an. Examining issues such as the status of women, democracy, freedom of religion and human rights, this book analyses the theoretical contributions of several Iranian scholars, some of which are new to the English speaking academy. The hermeneutical approaches of figures such as Abdolkarim Soroush, Muhammad Mojtahed Shabestari, Mohsen Kadivar, Hasan Yousefi Eshkevari, Abolqasem Fanaie and Mostafa Malekian are presented and then analysed to demonstrate how a contextualist approach to the Qur'an has been formed in response to the influence of Western Orientalism. The effect of this approach to the Qur'an is then shown to have wide ranging effects on Iranian society. This study reveals Qur'anic thought that has been largely overlooked by the West. It will therefore be of great use to academics in Religious, Islamic and Qur'anic studies as well as those studying the culture of Iran and the Middle East more generally.

Interpreting the Qur'ān

Abdullah Saeed, 2006 How is the Qur'an central to all Muslim societies to be understood today in order to meet the needs of these societies? Abdullah Saeed, a distinguished Muslim scholar, explores the interpretation of the ethico-legal content of the Qur'an whilst taking into consideration the changing nature of the modern world. Saeed explores the current debates surrounding the interpretation of the Qur'an and their impact on contemporary understanding of this sacred text. Discussing the text's relevance to modern issues without compromising the overall framework of the Qur'an and its core beliefs and practices, he proposes a fresh approach which takes into account the historical and contemporary contexts of interpretation. Inspiring healthy debate, this book is essential reading for students and scholars seeking a contemporary approach to the interpretation of the Qur'anic text.

The Qur'an and Modern Arabic Literary Criticism Mohammad Salama, 2018-05-17 In *The Qur'an and Modern Arabic Literary Criticism*, Mohammad Salama navigates the labyrinthine semantics that underlie this sacred text and inform contemporary scholarship. The book presents reflections on Qur'anic exegesis by explaining and distinguishing between interpretation and explication. While the book focuses on Qur'anic and literary scholarship in twentieth century Egypt, from Taha Husayn to Nasr Hamid Abu Zayd, it also engages with an immense tradition of scholarship from the classical period to the present, including authors such as Abu Ubayda Ibn Abbas al-Razi and al-Tabari. Salama argues that over the centuries the Arabic language experienced semantic and phonological shifts, creating a lacuna in understanding the Qur'an and bringing contemporary readers under the spell of hermeneutical and parochial interpretations. He demonstrates that while this lacuna explains much of the intellectual poverty of traditionalist approaches to Qur'anic exegesis, the work of the modern Egyptian school of academics marks a sharp departure from the programmed conservatism of

Islamist and Salafi exegetics Through analyses of the writings of these intellectuals the author shows that a fresh look at the sources and a revolutionary attempt to approach the Qur'an could render tradition itself an impetus for an alternative aesthetics contextual open and unfolding

The Oxford Handbook of Qur'anic Studies Mustafa Shah, M. A. S. Abdel Haleem, 2020-04-28 The Qur'an is the foundational sacred text of the Islamic faith Traditionally revered as the literal word of God its pronouncements and discussions form the bedrock of Islamic beliefs and teachings Notwithstanding its religious pre-eminence and the fact that it is the sacred text for over one billion of the world's Muslims the Qur'an is also considered to be the matchless masterpiece of the Arabic language Its historical impact as a text can be discerned in all aspects of the heritage of the Arabic literary tradition Over recent decades academic engagement with the Qur'an has produced an impressive array of scholarship ranging from detailed studies of the text's unique language style and structure to meticulous surveys of its contents concepts and historical contexts The Oxford Handbook of Qur'anic Studies is an essential reference and starting point for those with an academic interest in the Qur'an It offers not only detailed reviews of influential subjects in the field but also a critical overview of developments in the research discourse It explores the tradition of Qur'anic exegesis and hermeneutics making it a comprehensive academic resource for the study of the Qur'an No single volume devoted to such a broad academic survey of the state of the field currently exists

Contemporary Qur'ānic Hermeneutics Georges Tamer, 2025-04-21 This project presents the hermeneutical approaches to the Qur'an of the most prominent Qur'anic scholars in Islamic intellectual history Not only scholars who wrote commentaries on the Qur'an in the narrow sense of the word taf'sir are to be presented but also those who dealt hermeneutically with the Qur'an in various ways The Handbook of Qur'anic Hermeneutics is the first book that discusses all the hermeneutical fields of the Qur'an It will be published in seven volumes

Rethinking Human Rights and Global Constitutionalism Ekaterina Yahyaoui Krivenko, 2017-10-26 Are human

rights really a building block of global constitutionalism Does global constitutionalism have any future in the theory and practice of international law and global governance This book critically examines these key questions by focusing on the mechanisms utilised by global constitutionalism whilst comparing the historical functioning of constitutional rights in national systems Yahyaoui Krivenko provides new insights into the workings of human rights and associated notions such as the state the political and the individual by demonstrating that human rights are antithetical to global constitutionalism and encouraging new discussions on the meaning of global constitutionalism and human rights Drawing on the interdisciplinary works of such thinkers as Agamben Luhmann Bourdieu Deleuze and Guattari this book also considers practical examples from historical experience of ancient Greek and early Islamic societies It will appeal to scholars interested in human rights international law and critical legal theory
