Women and Photography in Africa Darren Newbury, Lorena Rizzo, Kylie Thomas, 2020-10-26 This collection explores women's multifaceted historical and contemporary involvement in photography in Africa. The book offers new ways of thinking about the history of photography exploring through case studies the complex and historically specific articulations of gender and photography on the continent and attending to the challenge and potential of contemporary feminist and postcolonial engagements with the medium. The volume is organised in thematic sections that present the lives and work of historically significant yet overlooked women photographers as well as the work of acclaimed contemporary African women photographers such as Hla Ammar Fatoumata Diabat Lebohang Kganye and Zanele Muholi. The book offers critical reflections on the politics of gendered knowledge production and the production of racialised and gendered identities and alternative and subaltern subjectivities. Several chapters illuminate how contemporary African women photographers collectors and curators are engaging with colonial photographic archives to contest stereotypical forms of representation and produce powerful counter histories. Raising critical questions about race gender and the history of photography the collection provides a model for interdisciplinary feminist approaches for scholars and students of art history visual studies and African history.

Sustainable Development in Africa Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education. Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries. Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood. There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges. It is against this background that this book has been produced. It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa. As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts. The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies.
