James Alvin Huston

United States Army Logistics United States Army Logistics:

United States Army Logistics Steve R. Waddell, 2009-12-22 You can train men to fight You can plan for the invasion But you can't have success on the battlefield if you cannot move the men and material into position Success is not possible without logistical support and capabilities The U S Army's logistics system began with practically nothing and through numerous conflicts and periods of peace has developed into a first rate supply system capable of supporting the global military commitments of the present day This work presents the history of U S Army logistics as one of evolution trial and error and occasionally revolutionary change over a period of two hundred plus years It is important that logisticians and combat leaders alike understand how the United States Army logistical system developed the challenges that had to be overcome and the successes and failures encountered along the way Creating the U S Army in 1775 proved to be easy compared to the task of keeping the army adequately supplied over the short and long term The availability of resources industrial capacity size of the army geographic scope of operations organization of the logistics system competent leadership congressional support funding and new technology have and continue to impact the logistical system on a daily basis Each new period of peace or war has brought new challenges and requirements This work is broken into two key parts First to inform the reader on the basic history of U S Army Logistics Second to identify the key factors that influenced the development of the logistical system *United States Army Logistics, 1775-1992* Charles R. Shrader, 1997 **Army Logistician**, 1969 The official magazine of United States Army logistics **The Sinews of War** James Alvin Huston, 1966 A record of the Army's experience in developing a workable and effective logistical system against the background of changing conditions in both peace and war *United States Army Logistics, 1775-1992* Charles R. Shrader, John Wyndham Mountcastle, 2001-09-01 Perhaps no other field of military science is more misunderstood than logistics Yet the means of supply transportation maintenance and a variety of other supporting services frequently affect the daily lives of soldiers the tactics of divisions and the strategies of nations Battles have been won and wars have been lost at least in part because of an army's ability to sustain itself in combat U S Army Logistics 1775 1992 An Anthology is designed to introduce to the soldier and the student of logistics a variety of topical selections that cover over 200 years of our army's history In many cases the reader may be intrigued by how often problems were repeated in different conflicts There were remarkable similarities in transportation problems during the Mexican War and World War II and comparable supply management difficulties arose during the Korean War and the war in Vietnam How military personnel dealt with these issues and what successive generations learned from these experiences provide valuable insights for logisticians and commanders today The selections for this anthology were made by Lt Col Charles R Shrader who was eminently qualified for this task Blending his years of experience as an Army logistician and historian Colonel Shrader has assembled a unique collection of essays that cover both the breadth and depth of Army logistics from the frozen hills of Valley Forge to the burning deserts of Southwest Asia For the

commander and the logistician the soldier and the student here is a book that will stimulate thought encourage discussions and provide perspective to an essential element of military science The Sinews of War: Army Logistics, 1775-1953 (Hardcover) James A. Huston, 1997-12-31 Logistics is a subject which few people including professional soldiers have thoroughly understood Yet logistics must support both tactical operations and the day to day life of the Army in the same way that a well run household supports the people who live in it Professor Huston who has served in tactical units in wartime and has studied logistics in both war and peace as a military man and a civilian has prepared a clear and comprehensive history of U S Army logistics from the time of the American Revolution through the Korean War He shows the role of all aspects of logistics supply transportation evacuation and hospitalization and service in peace and in war and in systematic fashion traces the development of the Army s logistical system The Sinews of War is offered to professional military men in all the armed services and to thoughtful students of problems of national defense as an essential contribution to their education

Author Bio Dr James A Huston professor of history at Purdue University received A B and A M degrees from Indiana University and the Ph D from New York University He has done graduate work at Oxford University and at the University of Fribourg He has been the Ernest J King Professor of Maritime History at the Naval War College and a NATO Fellow In the summer of 195 Dr Huston was Director for the National Defense Education Act History Institute held at Purdue University For the academic year 1966 67 he was a member of the faculty at the National War College Washington D C Dr Huston served with the 134th Infantry in the European Theater of Operations during World War II as a rifle battalion operations officer and is now a colonel of Infantry in the Active Reserve He is the author of Combat History of the 134th Infantry Biography of a Battalion and Across the Face of France as well as numerous articles on military and international affairs

Outposts and Allies James Alvin Huston, 1988 An account of the great transition from the U S Army s full mobilization in World War II to peacetime support of overseas forces and allies Includes discussion of the military logistics of applying the Truman Doctrine military assistance in China the Philippines Japan and Indochina and Western Hemisphere defense Illustrated **The Sinews of War** James A. Huston, 1966 Annual Department of Defense Bibliography of Logistics Studies and Related Documents United States. Defense Logistics Studies Information Exchange, 1965 **Bullets, Bandages and Beans** Alexander F. Barnes, Peter L. Belmonte, 2023-07-28 By October 1918 the U S had more than a million men fighting in the Meuse Argonne campaign The American Expeditionary Forces logistics army the Services of Supply SOS provided critical support to the combat forces An enormous array of maintenance medical motor transport railroad quartermaster and engineer units served in this role as well as British women from Queen Mary s Army Auxiliary Corps African American labor and pioneer regiments a U S Marine brigade led by a legendary officer volunteers from the Salvation Army Chinese laborers and even German prisoners of war The SOS kept American soldiers at the front supplied with bullets bandages and beans while repairing weapons producing vast quantities of lumber buying horses from Spain operating a

massive railroad network caring for the sick and wounded fighting fires on troopships driving trucks under enemy fire and administering a notorious prison This book gives a full account of perhaps the most overlooked yet crucial military effort of World War I
