	5.7 (240-320-H)	VS-320	80900122

NOTES: Throughout this manual, whenever model-specific information is provided, this text will be preceded by the model designation of the engine being discussed. This model designation appears in the title space preceding the paragraphs.

After reading sections that contain headings and titles without a model designation in the title, please be sure to remember that the information being provided applies to all models.

*After seeking assistance from your dealer regarding your power package, always be sure to use the specific label number for your particular engine.

Welcome Aboard

Congratulations on choosing a new boat equipped with a Volvo Penta marine engine. Volvo Penta has been building marine engines since 1907. Quality, operating reliability, and innovation have made Volvo Penta a world leader in the marine engine industry. From engineering design and manufacturing to support activities in Parts, Service, and Sales, high standards have been set to ensure your pride and satisfaction as the owner of a Volvo Penta product.

As an owner of a Volvo Penta marine engine, we would also like to welcome you to a worldwide network of dealers and service workshops to assist you with technical advice, service requirements and replacement parts. Please contact your nearest authorized Volvo Penta dealer for assistance.

We wish you many pleasant voyages.

Our Core Values: Quality, Safety, Environmental Care

The values and qualities that Volvo Penta represents are what make the company unique. From the very beginning, safety and quality have stood at the heart of the development of all of our products, processes, and services. It is in these values and qualities that the Volvo Penta corporate identity, brand position and legal status have been founded. Today's core values of quality, safety, and care for the environment remain central to Volvo Penta. They represent what we believe in as a company and will ultimately help us to survive.

Quality is a value that traditionally referred to product quality but now encompasses all aspects of our products and services. In today's competitive environment, Volvo Penta's quality commitment extends beyond industrial craftsmanship and engineering ingenuity to embrace care for the customer throughout the life of the product.

Safety will always be our most distinguishing core value. Historically embodied in the quality of all Volvo products, it also encompasses personal, family, business, and environmental values.

Environmental Care in all operations, from design to production, distribution, service, and recycling, is an integral part of the Volvo quality commitment towards customers, employees, and the community by embracing the environment as a core value. Volvo demonstrates its understanding of the environmental impact its products have upon nature and the shared urban and rural surroundings.

Volvo Penta continually controls a considerable part of its development resources toward minimizing the environmental impact of its products. Examples of areas where we are always looking for improvements are exhaust emissions, noise levels, and fuel consumption.

Regardless of whether your Volvo Penta engine is installed in a boat used for pleasure or commercial operation, insured operation in engine room environments of the engine will result in disturbance or damage to the environment.

In this owner's manual there are a number of service procedures, when, if and how often, we need to intervene in the engine's impact on the environment, and on running costs and a reduction in service life. Always observe recommended service intervals and make a habit of checking that the engine is operating normally every time you start it. Contact an authorized Volvo Penta dealer if you cannot correct the fault yourself.

Remember that most chemicals used on boats are harmful to the environment if used incorrectly. Volvo Penta recommends the use of biodegradable degreasing agents for all cleaning. Always dispose of engine and transmission oil, waste oil, oil, paint, degreasing agents and cleaning liquids etc. at proper disposal areas so that they do not harm the environment.

Adjust speed and behavior during your boat trip so that wash and noise generated by the boat do not disturb or harm wildlife, moored boats, docks, etc. Whenever you land or cross, please show consideration and always leave the areas you visit as you would like to find them yourself.
