Babb, 2015 The author introduces one of the world's oldest religions Jainism which prescribes nonviolence towards all living beings and emphasizes spiritual independence Understanding Religion and Artificial Intelligence Randall Reed, Tracy J. Trothen, 2025-09-15 Is artificial intelligence just another tool or is it something more Special In Understanding Religion and Artificial Intelligence Meaning Making in the Digital Age Randall Reed and Tracy J Trothen delve into this provocative question revealing how our perceptions of AI are deeply intertwined with age old human impulses to define the extraordinary Introducing their innovative Model of the Special Reed and Trothen illuminate how individuals groups and cultures dynamically shape AI's meaning ranging from the mundane to the Sacred and Demonic Through compelling case studies from AI chatbots sport and art to self driving cars and Deadbots the authors explore how narratives of awe fear and even transcendence position AI as a truly Special thing in our modern world Drawing on insights from religious studies ethics and sociology this interdisciplinary exploration provides a crucial framework for understanding the profound societal ethical and spiritual implications of AI Understanding Religion and Artificial Intelligence invites readers to engage in vital conversations about AI's impact on meaning values and the very fabric of human experience in this rapidly evolving digital age Prepare to see AI and ourselves in a whole new light *Understanding Eastern Philosophy* Ray Billington, 2002-01-04 Understanding Eastern Philosophy provides an accessible critical introduction to how some of the key philosophies of the East compare with those in the West Starting from a discussion of the problems of distinguishing between religions and philosophies Ray Billington presents a clear picture of the key tenets behind Hinduism Buddhism Taoism Jainism and Confucianism Moving on to compare the key themes of religious philosophy that cut across East and West such as a belief in God the soul moral decision making nature and authority Understanding Eastern Philosophy presents a fascinating and controversial picture of the contribution theistic religions have to make With its belief in a personal God bestowing a particular version of truth Ray Billington concludes that the universal mysticism characteristic of Eastern thought provides a more realistic and rewarding path than is commonly supposed in the West Understanding Eastern Philosophy assumes no prior knowledge of religion or philosophy Understanding Greek Religion Jennifer Larson, 2016-03-10 Understanding Greek Religion is one of the first attempts to fully examine any religion from a cognitivist perspective applying methods and findings from the cognitive science of religion to the ancient Greek world In this book Jennifer Larson shows that many of the fundamentals of Greek religion such as anthropomorphic gods divinatory procedures purity beliefs reciprocity and sympathetic magic arise naturally as by products of normal human cognition Drawing on evidence from across the ancient Greek world Larson provides detailed coverage of Greek theology and local pantheons rituals including processions animal sacrifice and choral dance and afterlife beliefs as they were expressed through hero worship and mystery cults Eighteen in depth essays illustrate the theoretical discussion with primary sources and include

case studies of key cult inscriptions from Kyrene Kos and Miletos This volume features maps tables and over twenty images to support and expand on the text and will provide conceptual tools for understanding the actions and beliefs that constitute a religion Additionally Larson offers the first detailed discussion of cognition and memory in the transmission of Greek religious beliefs and rituals as well as a glossary of terms and a bibliographical essay on the cognitive science of religion Understanding Greek Religion is an essential resource for both undergraduate and postgraduate students of Greek culture and ancient Mediterranean religions

Asian Philosophies and the Idea of Religion Sonia Sikka,Ashwani

Peetush,2020-09-28 With a focus on Asian traditions this book examines varieties of thought and self transformative practice that do not fit neatly on one side or another of the standard Western division between philosophy and religion It contains chapters by experts on Buddhist Confucian Taoist Hindu and Jain philosophies as well as ancient Greek philosophy and recent contemplative and spiritual movements The volume also problematizes the notion of a Western philosophical canon distinguished by rationality in contrast to a religious Eastern other These original essays creatively lay the groundwork needed to rethink dominant historical and conceptual categories from a wider perspective to arrive at a deeper more plural and global understanding of the diverse nature of both philosophy and religion The volume will be of keen interest to scholars and students in the Philosophy of Religion Asian and Comparative Philosophy and Religious Studies

Religion and Ecology Whitney A. Bauman,2014-04-29 Moving beyond identity politics while continuing to respect diverse

entities and concerns Whitney A Bauman builds a planetary politics that better responds to the realities of a pluralistic world Calling attention to the historical political and ecological influences shaping our understanding of nature religion humanity and identity Bauman collapses the boundaries separating male from female biology from machine human from more than human and religion from science encouraging readers to embrace hybridity and the inherent fluctuations of an open evolving global community As he outlines his planetary ethic Bauman concurrently develops an environmental ethic of movement that

relies not on place but on the daily connections we make across the planet He shows how both identity politics and environmental ethics fail to realize planetary politics and action limited as they are by foundational modes of thought that create entire worlds out of their own logic Introducing a postfoundational vision not rooted in the formal principles of nature or God and not based in the idea of human exceptionalism Bauman draws on cutting edge insights from queer poststructural and deconstructive theory and makes a major contribution to the study of religion science politics and ecology Jains in the World John E. Cort, 2001 Based on field research in northern Gujarat as well as on the study of both ancient Sanskrit and modern vernacular religious literature John Cort gives a rounded portrait of how the religion of Jainism is practised today
