Intercultural Theology, Volume Three Henning Wrogemann, 2019-02-19

Christianity is not only a global but also an intercultural phenomenon In this third volume of his three volume Intercultural Theology Henning Wrogemann proposes that we need to go beyond currently trending theologies of mission to formulate both a theory of interreligious relations and a related but methodologically independent theology of interreligious relations

Ramified Natural Theology in Science and Religion Rodney Holder, 2020-10-15 This book offers a rationale for a new

ramified natural theology that is in dialogue with both science and historical critical study of the Bible Traditionally knowledge of God has been seen to come from two sources nature and revelation However a rigid separation between these sources cannot be maintained since what purports to be revelation cannot be accepted without qualification rational argument is needed to infer both the existence of God from nature and the particular truth claims of the Christian faith from the Bible Hence the distinction between bare natural theology and ramified natural theology The book begins with bare natural theology as background to its main focus on ramified natural theology Bayesian confirmation theory is utilised to evaluate competing hypotheses in both cases in a similar manner to that by which competing hypotheses in science can be evaluated on the basis of empirical data In this way a case is built up for the rationality of a Christian theist worldview Addressing issues of science theology and revelation in a new framework this book will be of keen interest to scholars working in Religion and Science Natural Theology Philosophy of Religion Biblical Studies Systematic Theology and Science and Culture *What Is Truth?* James Emery White, 2006-09-01 SEARCHING FOR ABSOLUTES IN A POSTMODERN WORLD In this postmodern age truth especially religious or moral truth is widely criticized and constantly challenged yet perhaps more important than ever It was this realization that led James Emery White to examine the concepts of truth as held by five twentieth century theologians Cornelius Van Til Millard J Erickson Francis A Schaeffer Donald G Bloesch Carl F H Henry

Jonathan Edwards and Hebrews Joseph T. Cochran, 2025-02-10 This publication is the first survey of Jonathan Edwards's harmonic interpretation of Epistle to the Hebrews This methodology emphasized harmony between the history of the world and its account in the Word Drawn from a planned publication on The Harmony of the Old and New Testament the harmonic interpretation of Jonathan Edwards sought to harmonize the Old and New Testament by employing three habits 1 the habit of observing Old Testament prophetic fulfillment in the person and work of Christ in the New Testament 2 the habit of perceiving typology in the natural world and Scripture that typified the Messiah Jesus Christ 3 the habit of harmonizing the Old and New Testament according to its doctrines and precepts After introducing this methodology to readers this study provides eight thematic case studies on how Edwards demonstrated this methodology in his interpretation of the Epistle to the Hebrews Volume 10, Tome I: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome I is dedicated to the reception of Kierkegaard among German Protestant theologians and religious thinkers The writings of some of these figures turned out to be

instrumental for Kierkegaard's breakthrough internationally shortly after the turn of the twentieth century. Leading figures of the movement of dialectical theology such as Karl Barth, Emil Brunner, Paul Tillich and Rudolf Bultmann spawned a steadily growing awareness of and interest in Kierkegaard's thought among generations of German theology students. Emanuel Hirsch was greatly influenced by Kierkegaard and proved instrumental in disseminating his thought by producing the first complete German edition of Kierkegaard's published works. Both Barth and Hirsch established unique ways of reading and appropriating Kierkegaard which to a certain degree determined the direction and course of Kierkegaard studies right up to our own times.

Volume 19, Tome II: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-16

The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I which covers Tomes I-V is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II which covers Tomes VI-VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.
