Occupational Therapy in Australia Ted Brown, 2020-07-16 This ground breaking text provides a comprehensive guide to occupational therapy in Australia from its role in the healthcare system to the scope and nature of its practice The authors begin with an overview of

the history of occupational therapy in Australia the ethical and legal aspects of its practice and its role in population health and health promotion The values and philosophy of occupational therapy are considered next together with the roles and responsibilities of practitioners and specific practice features including client centred practice evidence based practice research in occupational therapy and clinical reasoning Key issues including occupational analysis the development of occupations across the lifespan occupational therapy assessment Indigenous issues practice in rural and remote areas and advocacy leadership and entrepreneurship are also examined in detail The first text specifically written for Australian entry to practice students by Australian authors this book is destined to become an essential reference for both students and professionals in the field Truly a valuable resource for all Australian occupational therapy students and practitioners

Professor Jenny Ziviani Children s Allied Health Research The University of Queensland This is a text that will have many editions and document the evolution of the profession for decades to come Professor Carolyn M Baum School of Medicine Washington University in St Louis

Australia's Toxic Medical Culture Vicki Adele Pascoe, 2018-10-11 This book explores dominance in Australia s medical culture through the positioning of international medical graduates IMGs It argues that IMGs are othered and ultimately positioned as an underclass a positioning validated and reinforced by the intersecting inequalities of class race and nation It also suggests that the positioning of IMGs is organised through the dimensions of structural power hegemonic power and interpersonal power which allow an exploration of power relations between the structures of the health system the Australian medical profession and the agency of IMGs The Australian narrative presented to the world espouses a community of social justice and human rights Instead an historical lens traces the formation and persistence of difference represented in ethnocentrism racism and xenophobia from 1788 to the present The research presented is multidisciplinary in scope An anti oppressive theoretical framework enables the voices of lived experience to penetrate throughout and a social justice platform engages the participants and the reader into the interwoven conversations The data set comprises a focus group 10 individual interviews with IMGs and a selection of inquiry submissions revealing rich and sometimes shocking evidence to paint a stark picture Other medical voices join the conversation via media responses to revelations of experiences not only by IMGs but also by Australian trained doctors It exposes a toxic culture endemic with bullying and sexual harassment This book is of interest to practitioners researchers and administrators in the fields of medical education human resource management legal studies health sciences social sciences health services government departments universities and hospitals as well as those tasked with duty of care and the provision of a safe workplace The voices gifted to this study raise awareness of current issues within medicine in Australia at a very personal level and begin to formulate a policy and practical response to address these disturbing revelations
