Violence and Social Order Philippa C. Maddern, 1992 This challenging study based on extensive archival research sets out to explore the nature and meaning of violence in fifteenth century England Philippa Maddern examines violence on each side of the law both in crime and in law enforcement in order to uncover the attitudes and beliefs of the inhabitants of medieval East Anglia She investigates the way their moral code was reflected in the procedures and punishments of the courts and assesses the success of the legal system in maintaining authority and order Dr Maddern's scholarly study reveals the strong concern for order apparent in fifteenth century society and offers a subtle and intelligent analysis of the role of violence

Violence and Social Order Phillipa C. Maddern, 1992 *Torture and Brutality in Medieval Literature* Larissa Tracy, 2012 A new look at the way in which medieval European literature depicts torture and brutality An ugly subject but one that needs to be treated thoroughly and comprehensively with a discreet wit and no excessive relish These needs are richly satisfied in Larissa Tracy's bold and important book

DEREK PEARSALL Professor Emeritus Harvard University Torture that most notorious aspect of medieval culture and society has evolved into a dominant mythology suggesting that the Middle Ages was a period during which sadistic torment was inflicted on citizens with impunity and without provocation popular museums displaying such gruesome implements as the rack the strappado the gridiron the wheel and the Iron Maiden can be found in many modern European cities These lurid images of medieval torture have re-emerged within recent discussions on American foreign policy and the introduction of torture legislation as a weapon in the War on Terror and raised questions about its history and reality particularly given its proliferation in some literary genres and its relative absence in others This book challenges preconceived ideas about the prevalence of torture and judicial brutality in medieval society by arguing that their portrayal in literature is not mimetic Instead it argues that the depictions of torture and brutality represent satire critique and dissent they have didactic and political functions in opposing the status quo Torture and brutality are intertextual literary motifs that negotiate cultural anxieties of national identity by situating these practices outside their own boundaries in the realm of the barbarian Other medieval and early modern authors define themselves and their nations in opposition to them Works examined range from Chaucer to the Scandinavian sagas to Shakespeare enabling a true comparative approach to be taken Larissa Tracy is Associate Professor Longwood University

Violence and the State in Languedoc, 1250-1400 Justine Firnhaber-Baker, 2014-04-24 A reconsideration of aristocratic violence and the rise of the royalist French state from the Albigensian Crusade to Agincourt

Medieval Society and the Manor Court Zvi Razi, Richard Michael Smith, 1996 The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England They offer a unique source with which to investigate peasant demography family patterns the village community and economy the characteristics and instruments of customary law and the ways in which that law was perceived and exploited by landlords and tenants The essays in this collection provide novel approaches to all of these

themes and are written by many of the historians who have pioneered the use of this source category in the last two decades In two introductory chapters the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society A valuable appendix contains an inventory of the most comprehensive unprinted manorial court roll series arranged systematically on a county to county basis detailing the repository in which they are located This book will serve as an essential reference tool for any serious study of medieval English rural society *Constant Crisis* Hans Jacob Orning, 2025-05-15 No detailed description available for Constant Crisis **Crime, Harm and Consumerism** Steve Hall, Tereza Kuldova, Mark Horsley, 2020-01-08 This book offers a collection of cutting edge essays on the relationship between crime harm and consumer culture Although consumer culture has been addressed across the social sciences it has yet to be fully explored in criminology The editors bring together an impressive list of authors with original ideas and a fresh perspective to this field The collection first introduces the reader to three sets of ideas which will be especially useful to students and researchers piecing together theoretical frameworks for their studies New concepts such as pseudo pacification the materialist libertine and the commodification of abstinence can be used as foundation stones for new explanatory criminological analyses in the 21st century The collection then moves on to present case studies based on rigorous empirical work in the fields of consumption and debt outlaw gangs illegal drug markets gambling the mentality that drives investment fraudsters and the relationship between social media and state surveillance These case studies showcase the strength of the research skills and knowledge these scholars offer to the field of criminology Written in a clear and direct style this book will appeal to students and scholars in criminology sociology cultural studies social theory and those interested in learning about the effects of consumer culture in modern society *Crisis and Survival in Late Medieval Ireland* Brendan Smith, 2013-06-20 Medieval Ireland is associated in the public imagination with the ruined castles and monasteries that remain prominent in the Irish landscape *Crisis and Survival in Late Medieval Ireland* The English of Louth and their Neighbours 1330 1450 examines how the society that produced these monuments developed over the course of a turbulent century focussing particularly on county Louth situated on the coast north of Dublin and adjacent to the earldom of Ulster Louth was one of the areas that had been most densely colonised by English settlers in the decades around 1200 and ties with England and loyalty to the English crown remained strong Its settlers found it possible to maintain close economic and political ties with England in part because of their proximity to the significant trading port of Drogheda and the residence among them of the archbishop of Armagh primate of Ireland also extended their international horizons and contacts In this volume Brendan Smith explores the ways in which the English settlers in Louth maintained their English identity in the face of plague and warfare The Black Death of 1348 9 and recurrent visitations of plague thereafter reduced their numbers significantly and encouraged the Irish lordships on their borders to challenge their local supremacy How to counter the threat from the MacMahons O Neills and others absorbed their energies and resources It not

only involved mounting armed campaigns taking hostages and building defences it also meant intermarrying with these families and entering into numerous solemn if short lived treaties with them Smith draws on original source material to present a picture of the English settlers in Louth and to show how living in the borderlands of the English world coloured every aspect of settler life
