Interdisciplinary Approach**

Violence And Culture A Cross Cultural And Interdisciplinary Approach Social Problems

Lene Arnett Jensen

Violence And Culture A Cross Cultural And Interdisciplinary Approach Social Problems:

Violence and Culture Jack David Eller, 2006 Jack Eller's book brings together widest range of material on violence as a modern and international cultural problem. It combines comprehensive theoretical discussion from multiple disciplines including anthropology sociology psychology and biology with rich empirical description and analysis in a global approach. Violence if not more prevalent is attracting more attention in academic arenas as well as the public arena. It has become a central feature of the 21st century. Because understanding violence requires comparisons to nonviolence Eller examines and contrasts a myriad of violent and nonviolent societies. Publisher's description

The Relativity of Deviance John Curra, 2011 In this Second Edition of his investigation into the relative nature of social deviance and how the public perceives it author John Curra demonstrates that what qualifies as deviance varies from place to place time to time and situation to situation. Through thought provoking examples that include the blue people of Kentucky a woman who believes she is a vampire autoerotic asphyxiators and others Curra illustrates that deviance cannot be explained in terms of absolutes nor can it be understood apart from its social setting. This insightful book approaches sex violence theft suicide drugs and mental disorders in such a way that definitive or objective judgments become impossible

The Handbook of Deviance Erich Goode, 2015-09-25 The Handbook of Deviance is a definitive reference for professionals researchers and students that provides a comprehensive and engaging introduction to the sociology of deviance. Composed of over 30 essays written by an international array of scholars and meticulously edited by one of the best known authorities on the study of deviance. Features chapters on cutting edge topics such as terrorism and environmental degradation as forms of deviance. Each chapter includes a critical review of what is known about the topic the current status of the topic and insights about the future of the topic. Covers recent theoretical innovations in the field including the distinction between positivist and constructionist perspectives on deviance and the incorporation of physical appearance as a form of deviance

Sport, Violence and Society Kevin Young, 2013-06-17 Is violence an intrinsic component of contemporary sport? How does violence within sport reflect upon the attitudes of wider society? In this landmark study of violence in and around contemporary sport Kevin Young offers the first comprehensive sociological analysis of an issue of central importance within sport studies. The book explores organized and spontaneous violence both on the field and off and calls for a much broader definition of sports related violence to include issues as diverse as criminal behaviour by players abuse within sport and exploitative labor practices. Offering a sophisticated new theoretical framework for understanding violence in a sporting context and including a wide range of case studies and empirical data from professional soccer in Europe to ice hockey in North America the book establishes a benchmark for the study of violence within sport and wider society. Through close examination of often contradictory trends from anti violence initiatives in professional sports leagues to the role of the media in encouraging hyper aggression the book throws new light on our understanding of the socially embedded character of sport and its

fundamental ties to history culture politics social class gender and the law *Norms of Violence* Aimée X.

Delaney,2021-03-29 *Norms of Violence* Violent Socialization Processes and the Spillover Effect for Youth Crime explores the degree to which violent socialization processes both at the macro and micro levels are associated with youth criminal behavior Based on a quantitative test of an integrated theory of social control and culture of violence the author argues that violent socialization is a process involving physical violence exposure to violence and pro violent communications All three dimensions in combination with national level indicators of violence contribute to a norm of violence which at a national level spills over into other dimensions of society including the family environment This book seeks to answer if violent socialization processes truly control youth behavior Various quantitative methods are used to demonstrate how violent socialization tends to be more prevalent in nations with indicators of violence compared to nations without such indicators The spilling over of violence into socialization processes creates a context of violence normalized as a form of social control which exacerbates youth criminal behavior within pro violent nations This book is unique in propelling a more thorough explanation of international youth crime by focusing on both victimization violent socialization and offending rather than arguing solely that victimization is a correlate of youth crime It provides a reference point for future comparative research offering theoretical explanations for youth crime across different nations and is essential reading for those engaged in youth and juvenile justice efforts and scholars interested in issues surrounding violence youth and justice *The ^AOxford Handbook of Sport and Society* Lawrence A. Wenner,2022-09-27

The Oxford Handbook of Sport and Society is the premier comprehensive and interdisciplinary work for readers looking to understand key areas of inquiry about the role and impacts of sport in contemporary culture Through fifty seven chapter treatments from leading international scholars on sport s impact on key aspects of our lives the Handbook is essential reading for any reader trying to understand the outsized ways in which sport has become more than a game *Corporeity and Affectivity* Karel Novotny,Pierre Rodrigo,Jenny Slatman,Silvia

Stoller,2013-10-02 The articles in this volume reflect upon the intersections of corporeity and affectivity in Maurice Merleau Ponty s phenomenology They illuminate the meaning of his phenomenology regarding corporeity and affectivity from various phenomenological perspectives Corporeity and Affectivity explores his invaluable contribution in interdisciplinary and trans disciplinary respect including the humanities the arts and the sciences Contributors include Alexei Chernyakov Jagna Brudziska Universit t K ln IFiS PAN Warschau Nicola Zippel Sapienza University of Rome Department of Philosophy Karel Novotny Faculty of Humanities Charles University of Prague James Mensch Charles University in Prague Faculty of Humanities Annabelle Dufourcq Charles University Prague Faculty of Humanities Juho Hotanen University of Helsinki Silvia Stoller Universit t Wien Pierre Rodrigo Universit de Bourgogne Dijon Antonino Firenze University Pompeu Fabra Barcelona Shaun Gallagher University of Memphis Department of Philosophy Kwok ying Lau The Chinese University of Hong Kong Monika Murawska The Academy of Fine Arts Warsaw Irene Breuer Bergische Universit t Wuppertal Mauro Carbone Universit Jean
